

BNS EURO STOXX 50® INDEX AUTOCALLABLE NOTES, SERIES 139F (CAD)

Principal at Risk Notes – Due March 11, 2033

February 19, 2026

The Bank of Nova Scotia short form base shelf prospectus dated March 4, 2024, a prospectus supplement thereto dated March 5, 2024 and pricing supplement No. 6311 (the “pricing supplement”) thereto dated February 19, 2026 (collectively, the “Prospectus”) have been filed with the securities regulatory authorities in each of the provinces and territories of Canada. A copy of the Prospectus and any amendments or supplements thereto that have been filed are required to be delivered with this document. The Prospectus and any amendments or supplements thereto contain important information relating to the securities described in this document. This document does not provide full disclosure of all material facts relating to the securities offered and investors should read the Prospectus, and any amendments or supplements thereto, for disclosure of those facts, especially risk factors relating to the securities offered, before making an investment decision. A copy of the short form base shelf prospectus, the prospectus supplement and the pricing supplement can also be obtained at www.sedarplus.ca. Unless the context otherwise requires, terms not otherwise defined herein will have the meaning ascribed thereto in the Prospectus.

at Maturity

KEY TERMS

Issuer

The Bank of Nova Scotia (the “Bank”).

Index*

EURO STOXX 50® Index (the “Index”).

Autocall

The Notes will be automatically called (i.e., redeemed) by the Bank if the Closing Index Level on any Autocall Valuation Date is greater than or equal to the Autocall Level (which is 100.00% of the Initial Index Level). If the Notes are called, holders will receive both the Principal Amount and a Variable Return for the applicable Autocall Valuation Date. The Notes are callable on an annual basis and cannot be automatically called prior to March 11, 2027. If the Closing Index Level on any Autocall Valuation Date is not greater than or equal to the Autocall Level, the Notes will not be automatically called by the Bank and the Variable Return will not be paid to holders in respect of such Autocall Valuation Date.

Potential Variable Return

The Variable Return, if any, applicable to each respective Valuation Date will be calculated using the following formula:

$$\text{Principal Amount} \times (\text{Fixed Return} + \text{Additional Return})$$

The Additional Return, if any, is equal to 5.00% of the amount by which the Index Return on the applicable Valuation Date exceeds the applicable Fixed Return, calculated using the formula below:

$$5.00\% \times (\text{Index Return} - \text{Fixed Return})$$

If the Index Return on the applicable Valuation Date is equal to or less than the applicable Fixed Return, no Additional Return will be paid on the Notes.

The Fixed Return used in the calculation of the Variable Return, if any, and the calculation of the Additional Return, if any, for each Valuation Date will be as follows:

Valuation Date	Fixed Return	Additional Return (if Index Return exceeds Fixed Return)
2027 Autocall Valuation Date	7.75%	5.00% × (Index Return – 7.75%)
2028 Autocall Valuation Date	15.50%	5.00% × (Index Return – 15.50%)
2029 Autocall Valuation Date	23.25%	5.00% × (Index Return – 23.25%)
2030 Autocall Valuation Date	31.00%	5.00% × (Index Return – 31.00%)
2031 Autocall Valuation Date	38.75%	5.00% × (Index Return – 38.75%)
2032 Autocall Valuation Date	46.50%	5.00% × (Index Return – 46.50%)
Final Valuation Date	54.25%	5.00% × (Index Return – 54.25%)

The Fixed Return for the 2027 Autocall Valuation Date, the 2028 Autocall Valuation Date, the 2029 Autocall Valuation Date, the 2030 Autocall Valuation Date, the 2031 Autocall Valuation Date, the 2032 Autocall Valuation Date and the Final Valuation Date is equal to an annualized return of 7.75%, 7.47%, 7.22%, 6.98%, 6.77%, 6.57% and 6.39%, respectively.

Contingent Principal Protection

30.00% contingent principal protection. The Notes provide contingent principal protection at maturity if the Final Index Level on the Final Valuation Date is greater than or equal to the Barrier Level (which is 70.00% of the Initial Index Level). If the Final Index Level on the Final Valuation Date is less than the Barrier

Level, a holder of the Notes will be fully exposed to any negative price performance of the Index, meaning that substantially all of such holder's investment may be lost (subject to a minimum principal repayment of \$1.00 per Note).

*The Closing Index Level reflects only the price appreciation or depreciation of the securities of the issuers comprising the Index and does not reflect any dividends, distributions or other income or amounts accruing or paid on such securities. The annual dividend yield on the Index as of January 30, 2026 was 2.68%, representing an aggregate dividend yield of approximately 20.34% annually compounded over the term of the Notes on the assumption that the dividends paid on the securities comprising the Index remain constant.

\$100.00 per Note.

Minimum Investment

\$1,000 (10 Notes).

CUSIP

06420ZC58.

Fundserv Code

SSP7350.

Index

Whether there is a return on the Notes through the Variable Return and whether the Principal Amount is returned at maturity is based on the price performance of the EURO STOXX 50® Index (the "Index"). The Index is derived from the EURO STOXX index and represents the performance of the 50 largest companies among the 20 supersectors in terms of free-float market capitalization in the Eurozone. Constituents are capped at 10%.

The level of the Index may be affected by the volatility of the prices of the equity securities of the issuers comprising the Index, meaning that such prices can fluctuate and change considerably in relatively short periods and the performance of such prices cannot be predicted for any future period and as a result an investment linked to Index levels may also be volatile. Prospective investors are urged to consult publicly available sources for the levels of the Index and the patterns of fluctuations and changes in the levels of the Index and the prices and trading patterns of the constituent securities of the Index before investing in the Notes. See "Risk Factors" in the pricing supplement.

The Notes do not represent a direct or indirect investment in the Index or its constituent securities, and holders will have no right or entitlement to such securities, including voting rights or the right to receive any dividends, distributions or other income or amounts accruing or paid thereon. The Closing Index Level reflects only the price appreciation or depreciation of the securities of the issuers comprising the Index and does not reflect any dividends, distributions or other income or amounts accruing or paid on such securities. The annual dividend yield on the Index as of January 30, 2026 was 2.68%, representing an aggregate dividend yield of approximately 20.34% annually compounded over the approximately 7 year term of the Notes on the assumption that the dividends paid on the securities comprising the Index remain constant. There is no requirement for the Bank to hold any interest in the Index or its constituent securities.

Initial Valuation Date

March 11, 2026 (the "Initial Valuation Date"), provided that if such day is not an Exchange Business Day then the Initial Valuation Date will be the first succeeding day that is an Exchange Business Day, subject to the occurrence of any special circumstances (see "Special Circumstances" in the pricing supplement).

Final Valuation Date

March 7, 2033 (the "Final Valuation Date"), provided that if such day is not an Exchange Business Day then the Final Valuation Date will be the immediately preceding Exchange Business Day, subject to the Notes being automatically called and the occurrence of any special circumstances (see "Special Circumstances" in the pricing supplement).

Valuation Dates, Payment Dates and Call Dates

The specific Valuation Dates, Payment Dates and Call Dates for the Notes will be as indicated in the table below, subject to the occurrence of any special circumstances (see "Special Circumstances" in the pricing supplement) and the Notes being automatically called by the Bank. The Notes are callable on an annual basis and cannot be automatically called by the Bank prior to March 11, 2027.

Valuation Date	Payment Date/ Call Date
March 5, 2027 (the "2027 Autocall Valuation Date")	March 11, 2027
March 7, 2028 (the "2028 Autocall Valuation Date")	March 13, 2028
March 6, 2029 (the "2029 Autocall Valuation Date")	March 12, 2029
March 5, 2030 (the "2030 Autocall Valuation Date")	March 11, 2030
March 5, 2031 (the "2031 Autocall Valuation Date")	March 11, 2031
March 5, 2032 (the "2032 Autocall Valuation Date")	March 11, 2032
March 7, 2033 (Final Valuation Date)	March 11, 2033 (Maturity Date)

Each of the Valuation Dates (other than the Final Valuation Date) is an "Autocall Valuation Date". Unless the Notes are automatically called by the Bank prior to maturity, the Maturity Date is the last Payment Date. If the Notes are automatically called (i.e., redeemed) by the Bank on any Call Date prior to the Maturity Date, the Notes will be cancelled, all amounts due shall be paid to holders on the applicable Payment Date and holders will not be entitled to receive any subsequent payments in respect of the Notes.

If an Autocall Valuation Date is not an Exchange Business Day then the Autocall Valuation Date will be the immediately preceding Exchange Business Day, subject to the occurrence of any special circumstances (see "Special Circumstances" in the pricing supplement). If a Payment Date, a Call Date or the Maturity Date is not a Business Day then the related payment the Bank is obligated to make on such day, if any, will be paid to the holder on the immediately following Business Day, subject to the occurrence of any special circumstances (see "Special Circumstances" in the pricing supplement), and no interest shall be paid in respect of such delay.

Maturity Redemption Amount

Holders of record will be entitled to an amount payable per Note if the Notes are automatically called by the Bank, or at maturity, as the case may be (in each case, the "Maturity Redemption Amount") as calculated by the Calculation Agent in accordance with the applicable formula below:

If the Closing Index Level on an Autocall Valuation Date or the Final Valuation Date is greater than or equal to the Autocall Level, the Maturity Redemption Amount will equal:

Principal Amount + Variable Return

If the Final Index Level on the Final Valuation Date is less than the Autocall Level but greater than or equal to the Barrier Level, the Maturity Redemption Amount will equal:

Principal Amount

If the Final Index Level on the Final Valuation Date is less than the Barrier Level, the Maturity Redemption Amount will equal:

Principal Amount + (Principal Amount × Index Return)

The Maturity Redemption Amount will be substantially less than the Principal Amount invested by an investor if the Final Index Level on the Final Valuation Date is less than the Barrier Level. The Maturity Redemption Amount will be subject to a minimum principal repayment of \$1.00 per Note. **The return on the Notes will not reflect the total return that an investor would receive if such investor owned the securities included in the Index.**

Autocall Level

100.00% of the Initial Index Level.

Barrier Level

70.00% of the Initial Index Level.

Index Return

The Index Return is an amount expressed as a percentage (which can be zero, positive or negative) calculated by the Calculation Agent in accordance with the following formula:

$$\frac{(\text{Final Index Level} - \text{Initial Index Level})}{\text{Initial Index Level}}$$

Closing Index Level

The official closing level or value of the Index on a given day as calculated and announced by the Index Sponsor on an Exchange Business Day.

Initial Index Level

The Closing Index Level on the Initial Valuation Date.

Final Index Level

The Closing Index Level on an Autocall Valuation Date or the Final Valuation Date, as the case may be.

Currency

The Notes are denominated in Canadian dollars and any amounts owing under the Notes will be payable in Canadian dollars. No currency conversion will be applied when calculating amounts owing under the Notes. Unless otherwise indicated, all dollar amounts appearing in this document are stated in Canadian dollars.

Listing and Secondary Market

The Notes will not be listed on any exchange or marketplace. Scotia Capital Inc. will use reasonable efforts under normal market conditions to provide a daily secondary market for the sale of the Notes but reserves the right to elect not to do so at any time in the future, in its sole and absolute discretion, without prior notice to holders.

Eligibility for Investment

Eligible for RRSPs, RRIIFs, RESPs, RDSPs, DPSPs, TFSAs and FHSAs.

Fees and Expenses

There is no selling concession fee payable to the Investment Dealers in respect of the Notes. A fee of up to \$0.15 per Note sold (or up to 0.15% of the Principal Amount) will be payable directly by the Bank to iA Private Wealth Inc. at closing for acting as the independent agent. The payment of these fees will not reduce the amount on which the Maturity Redemption Amount payable on the Notes is calculated.

HYPOTHETICAL EXAMPLES

The following hypothetical examples show how the Variable Return and Maturity Redemption Amount would be calculated and determined based on certain hypothetical values and assumptions that are set out below. **These examples are for illustrative purposes only and should not be construed as an estimate or forecast of the performance of the Index or the return that an investor might realize on the Notes.** The return on the Notes will be calculated based on the price performance of the Index, which will not reflect the value of any dividends, distributions or other income or amounts accruing or paid on the constituent securities of the Index. Certain dollar amounts are rounded to the nearest whole cent and “\$” refers to the relevant currency for the specific hypothetical dollar amounts and hypothetical prices that the context requires.

Hypothetical values for calculations:

Initial Index Level*:	100.00
Barrier Level:	70.00% of the Initial Index Level = 70.00% × 100.00 = 70.00
Autocall Level:	100.00% of the Initial Index Level = 100.00% × 100.00 = 100.00

**The Initial Index Level of 100.00 is a hypothetical Initial Index Level that has been chosen for illustrative purposes only and does not represent either the actual Initial Index Level or an estimate or forecast thereof. The actual Initial Index Level is equal to the Closing Index Level on the Initial Valuation Date.*

Example #1 - The Notes are not automatically called as the Closing Index Level on each Autocall Valuation Date is less than the Autocall Level. The Final Index Level on the Final Valuation Date is less than the Barrier Level and no Variable Return is payable.

	2027 Autocall Valuation Date	2028 Autocall Valuation Date	2029 Autocall Valuation Date	2030 Autocall Valuation Date	2031 Autocall Valuation Date	2032 Autocall Valuation Date	Final Valuation Date
Closing Index Level:	94.95	85.99	85.00	89.00	83.00	79.00	50.33 (Final Index Level)
Index Return:	-5.05% (actual)	-14.01% (actual)	-15.00% (actual)	-11.00% (actual)	-17.00% (actual)	-21.00% (actual)	-49.67% (actual)
Maturity Redemption Amount:	N/A	N/A	N/A	N/A	N/A	N/A	\$50.33 per Note

Since the Final Index Level on the Final Valuation Date is less than the Barrier Level, the Maturity Redemption Amount is calculated as follows:

Principal Amount + (Principal Amount × Index Return)

$$\$100.00 + (\$100.00 \times -49.67\%) = \$50.33 \text{ per Note}$$

In this example, since the Final Index Level on the Final Valuation Date is less than the Autocall Level, no Variable Return is payable.

An investor would receive a Maturity Redemption Amount of \$50.33 per Note on the Maturity Date, which is equivalent to an annual compound rate of return of approximately -9.34% per Note.

Example #2 - The Notes are not automatically called as the Closing Index Level on each Autocall Valuation Date is less than the Autocall Level. The Final Index Level on the Final Valuation Date is less than the Autocall Level, but greater than or equal to the Barrier Level and no Variable Return is payable.

	2027 Autocall Valuation Date	2028 Autocall Valuation Date	2029 Autocall Valuation Date	2030 Autocall Valuation Date	2031 Autocall Valuation Date	2032 Autocall Valuation Date	Final Valuation Date
Closing Index Level:	94.95	85.99	85.00	89.00	83.00	79.00	79.10 (Final Index Level)
Index Return:	-5.05% (actual)	-14.01% (actual)	-15.00% (actual)	-11.00% (actual)	-17.00% (actual)	-21.00% (actual)	-20.90% (actual)
Maturity Redemption Amount:	N/A	N/A	N/A	N/A	N/A	N/A	\$100.00 per Note

Since the Final Index Level on the Final Valuation Date is less than the Autocall Level, but greater than the Barrier Level, the Maturity Redemption Amount is calculated as follows:

Principal Amount = \$100.00 per Note

In this example, since the Final Index Level on the Final Valuation Date is less than the Autocall Level, no Variable Return is payable.

An investor would receive a Maturity Redemption Amount of \$100.00 per Note on the Maturity Date, which is equivalent to an annual compound rate of return of 0.00% per Note.

Example #3 - The Notes are not automatically called as the Closing Index Level on each Autocall Valuation Date is less than the Autocall Level. The Final Index Level on the Final Valuation Date is greater than or equal to the Autocall Level and a Variable Return is payable consisting of a Fixed Return only. No Additional Return is payable as the Index Return is less than or equal to the Fixed Return.

	2027 Autocall Valuation Date	2028 Autocall Valuation Date	2029 Autocall Valuation Date	2030 Autocall Valuation Date	2031 Autocall Valuation Date	2032 Autocall Valuation Date	Final Valuation Date
Closing Index Level:	94.95	85.99	85.00	89.00	83.00	79.00	106.00 (Final Index Level)
Index Return:	-5.05% (actual)	-14.01% (actual)	-15.00% (actual)	-11.00% (actual)	-17.00% (actual)	-21.00% (actual)	6.00% (actual)
Maturity Redemption Amount:	N/A	N/A	N/A	N/A	N/A	N/A	\$154.25 per Note

Since the Final Index Level on the Final Valuation Date is greater than the Autocall Level, the Maturity Redemption Amount is calculated as follows:

Principal Amount + Variable Return

Principal Amount + [Principal Amount × (Fixed Return + Additional Return)]

$\$100.00 + [\$100.00 \times (54.25\% + 0.00\%)] = \154.25 per Note

In this example, since the Index Return (6.00%) is less than the Fixed Return (54.25%), no Additional Return is payable.

An investor would receive a Maturity Redemption Amount of \$154.25 per Note on the Maturity Date, which is equivalent to an annual compound rate of return of approximately 6.39% per Note.

Example #4 - The Notes are not automatically called on the 2027 or 2028 Autocall Valuation Dates as the Closing Index Level is less than the Autocall Level. The Notes are automatically called on the 2029 Autocall Valuation Date as the Closing Index Level is greater than or equal to the Autocall Level and a Variable Return is payable consisting of a Fixed Return and an Additional Return as the Index Return is greater than the Fixed Return.

	2027 Autocall Valuation Date	2028 Autocall Valuation Date	2029 Autocall Valuation Date	2030 Autocall Valuation Date	2031 Autocall Valuation Date	2032 Autocall Valuation Date	Final Valuation Date
Closing Index Level:	94.95	85.99	128.59 (Autocall)	N/A	N/A	N/A	N/A
Index Return:	-5.05% (actual)	-14.01% (actual)	28.59% (actual)	N/A	N/A	N/A	N/A
Maturity Redemption Amount:	N/A	N/A	\$123.52 per Note	N/A	N/A	N/A	N/A

Since the Closing Index Level on the 2029 Autocall Valuation Date is greater than the Autocall Level, the Maturity Redemption Amount is calculated as follows:

Principal Amount + Variable Return

Principal Amount + [Principal Amount × (Fixed Return + Additional Return)]

$\$100.00 + [\$100.00 \times (23.25\% + (5.00\% \times (28.59\% - 23.25\%)))] = \123.52 per Note

In this example, since the Index Return (28.59%) is greater than the Fixed Return (23.25%), an Additional Return is payable.

An investor would receive a Maturity Redemption Amount of \$123.52 per Note, which is equivalent to an annual compound rate of return of approximately 7.29% per Note.

Example #5 - The Notes are automatically called on the 2027 Autocall Valuation Date as the Closing Index Level is greater than or equal to the Autocall Level and a Variable Return is payable consisting of a Fixed Return only. No Additional Return is payable as the Index Return is less than the Fixed Return.

	2027 Autocall Valuation Date	2028 Autocall Valuation Date	2029 Autocall Valuation Date	2030 Autocall Valuation Date	2031 Autocall Valuation Date	2032 Autocall Valuation Date	Final Valuation Date
Closing Index Level:	103.00 (Autocall)	N/A	N/A	N/A	N/A	N/A	N/A
Index Return:	3.00% (actual)	N/A	N/A	N/A	N/A	N/A	N/A
Maturity Redemption Amount:	\$107.75 per Note	N/A	N/A	N/A	N/A	N/A	N/A

Since the Closing Index Level on the 2027 Autocall Valuation Date is greater than the Autocall Level, the Maturity Redemption Amount is calculated as follows:

Principal Amount + Variable Return

Principal Amount + [Principal Amount × (Fixed Return + Additional Return)]
 $\$100.00 + [\$100.00 \times (7.75\% + 0.00\%)] = \107.75 per Note

In this example, since the Index Return (3.00%) is less than the Fixed Return (7.75%), no Additional Return is payable.

An investor would receive a Maturity Redemption Amount of \$107.75 per Note, which is equivalent to an annual compound rate of return of 7.75% per Note.

DISCLAIMER

No securities regulatory authority has in any way passed upon the merits of the securities referred to herein and any representation to the contrary is an offence. The Notes are not principal protected (subject to a minimum principal repayment of \$1.00 per Note) and an investor may receive substantially less than the original principal amount at maturity. A person should reach a decision to invest in the Notes only after carefully considering, with their investment, legal, accounting, tax and other advisors, the suitability of the Notes in light of their investment objectives and the information set out in the Prospectus. The Bank, the Calculation Agent, Scotia Capital Inc. and iA Private Wealth Inc. make no recommendation as to the suitability of the Notes for investment by any particular person. The Notes have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "1933 Act"), or any State securities laws and, subject to certain exceptions, may not be offered for sale, sold or delivered, directly or indirectly, in the United States, its territories or possessions or to or for the account or benefit of U.S. persons within the meaning of Regulation S under the 1933 Act. In addition, the Notes may not be offered or sold to residents of any jurisdiction or country in Europe. "Scotiabank" and "Scotiabank Global Banking and Markets" are registered trademarks of The Bank of Nova Scotia. Scotia Capital Inc. is a wholly-owned subsidiary of The Bank of Nova Scotia.

Amounts paid to holders of the Notes will depend on the price performance of the underlying interests. Unless otherwise specified in the Prospectus, the Bank does not guarantee that any of the principal amount of the Notes will be paid, or guarantee that any return will be paid on the Notes, at or prior to maturity (in each case, subject to a minimum principal repayment of \$1.00 per Note). Purchasers could lose substantially all of their investment in the Notes. The Notes are not appropriate investments for persons who do not understand the risks associated with structured products or derivatives. A purchaser of the Notes will be exposed to fluctuations and changes in the levels of the Index to which the Notes are linked. The Index levels may be volatile and an investment linked to Index levels may also be volatile. Purchasers should read carefully the "Risk Factors" sections in the Prospectus.

The Notes will not constitute deposits under the *Canada Deposit Insurance Corporation Act* or under any other deposit insurance regime. The Notes have not been rated and will not be insured by the Canada Deposit Insurance Corporation or any other entity and therefore the payments to investors will be dependent upon the financial health and creditworthiness of the Bank.

Scotia Capital Inc. is a wholly owned subsidiary of the Bank. Consequently, the Bank is a related and connected issuer of Scotia Capital Inc. within the meaning of applicable securities legislation. See "Plan of Distribution" in the Prospectus.

The information contained herein, while obtained from sources believed to be reliable, is not guaranteed as to its accuracy or completeness.

INDEX SPONSOR

STOXX Limited, Deutsche Börse Group and their licensors, research partners or data providers have no relationship to the Bank, other than the licensing of the Index and the related trademarks for use in connection with the Notes.

STOXX Limited, Deutsche Börse Group and their licensors, research partners or data providers do not:

- sponsor, endorse, sell or promote the Notes.
- recommend that any person invest in the Notes or any other securities.
- have any responsibility or liability for or make any decisions about the timing, amount or pricing of the Notes.
- have any responsibility or liability for the administration, management or marketing of the Notes.
- consider the needs of the Notes or the owners of the Notes in determining, composing or calculating the Index or have any obligation to do so.

STOXX Limited, Deutsche Börse Group and their licensors, research partners or data providers give no warranty, and exclude any liability (whether in negligence or otherwise), in connection with the Notes or their performance.

STOXX Limited does not assume any contractual relationship with the purchasers of the Notes or any other third parties.

Specifically,

- STOXX Limited, Deutsche Börse Group and their licensors, research partners or data providers do not give any warranty, express or implied, and exclude any liability about:
 - The results to be obtained by the Notes, the owner of the Notes or any other person in connection with the use of the Index and the data included in the Index;
 - The accuracy, timeliness, and completeness of the Index and its data;
 - The merchantability and the fitness for a particular purpose or use of the Index and its data;
 - The performance of the Notes generally.
- STOXX Limited, Deutsche Börse Group and their licensors, research partners or data providers give no warranty and exclude any liability, for any errors, omissions or interruptions in the Index or its data;
- Under no circumstances will STOXX Limited, Deutsche Börse Group or their licensors, research partners or data providers be liable (whether in negligence or otherwise) for any lost profits or indirect, punitive, special or consequential damages or losses, arising as a result of such errors, omissions or interruptions in the Index or its data or generally in relation to the Notes, even in circumstances where STOXX Limited, Deutsche Börse Group or their licensors, research partners or data providers are aware that such loss or damage may occur.

The licensing agreement between the Bank and STOXX Limited is solely for their benefit and not for the benefit of the owners of the Notes or any other third parties.
