

BNS CANADA LARGE CAP (AR) INDEX CALLABLE CONTINGENT MEMORY COUPON NOTES, SERIES 6F (CAD)

Principal at Risk Notes – Due May 13, 2033

May 1, 2026

The Bank of Nova Scotia short form base shelf prospectus dated March 12, 2026 and pricing supplement No. 6734 (the “pricing supplement”) thereto dated May 1, 2026 (collectively, the “Prospectus”) have been filed with the securities regulatory authorities in each of the provinces and territories of Canada. A copy of the Prospectus and any amendments or supplements thereto that have been filed are required to be delivered with this document. The Prospectus and any amendments or supplements thereto contain important information relating to the securities described in this document. This document does not provide full disclosure of all material facts relating to the securities offered and investors should read the Prospectus, and any amendments or supplements thereto, for disclosure of those facts, especially risk factors relating to the securities offered, before making an investment decision. A copy of the short form base shelf prospectus and the pricing supplement can also be obtained at www.sedarplus.ca. Unless the context otherwise requires, terms not otherwise defined herein will have the meaning ascribed thereto in the Prospectus.

Linked to Scotiabank Canada Top 30 Large Cap Dividend Index 135 AR	Contingent Coupon Payments, payable Monthly with a Memory Feature	Quarterly Autocall at 105.00% of the Initial Index Level starting May 13, 2027	20.00% Contingent Principal Protection at Maturity
--	---	---	--

KEY TERMS

Issuer

The Bank of Nova Scotia (the “Bank”).

Index*

Scotiabank Canada Top 30 Large Cap Dividend Index 135 AR (the “Index”). The Index was launched on February 18, 2026 and is the Bank’s proprietary index.

Monthly Coupon Payments

On each Payment Date, holders of record may be entitled to receive a monthly coupon per Note (a “Coupon Payment”), unless the Notes have been automatically called, determined as follows:

If the Closing Index Level on the relevant Coupon Valuation Date is greater than or equal to the Barrier Level, the Coupon Payment will be:

Fixed Return + Variable Return + Memory Amount.

If the Closing Index Level on the relevant Coupon Valuation Date is less than the Barrier Level:

no Coupon Payment will be paid.

If the Closing Index Level is equal to the Barrier Level, no Variable Return is payable and an investor would only be entitled to the Fixed Return and the Memory Amount, if any.

Fixed Return

The fixed return is equal to \$0.6675 per Note (the “Fixed Return”).

Variable Return

If the Closing Index Level is greater than the Barrier Level, then the Variable Return on a Coupon Valuation Date will be calculated using the following formula:

[Principal Amount × (0.10% × (Index Return + 20.00%))]

For greater certainty, a Variable Return is not payable on a Memory Amount.

Memory Amount

The Memory Amount will be calculated as follows:

If no Coupon Payment was paid on the immediately preceding Payment Date, the Memory Amount will equal:

Fixed Return × Memory Period

If a Coupon Payment was paid on the immediately preceding Payment Date, the Memory Amount will equal:

\$0.00

“Memory Period” means, since and excluding the last Coupon Valuation Date on which a Coupon Payment was made, the number of Coupon Valuation Dates immediately preceding the relevant Coupon Valuation Date on which the Closing Index Level is greater than or equal to the Barrier Level, where no Coupon Payment was made in respect of such immediately preceding Coupon Valuation Dates.

For greater certainty, the Memory Period will be equal to zero on the first Coupon Valuation Date since there are no Coupon Valuation Dates preceding the first Coupon Valuation Date. In computing a Memory Period, a Coupon Valuation Date where no Coupon Payment was made in respect of such Coupon Valuation Date may be counted only once if the Closing Index Level is greater than or equal to the Barrier Level on a subsequent Coupon Valuation Date, meaning that once a previous Memory Amount has been paid on a later Payment Date, it will not be paid again on any subsequent Payment Date.

Autocall

The Notes will be automatically called (i.e., redeemed) by the Bank if the Closing Index Level on any Autocall Valuation Date is greater than or equal to the Autocall Level (which is 105.00% of the Initial Index Level). The Notes are callable on a quarterly basis as set forth in the pricing supplement and cannot be automatically called prior to May 13, 2027. If the Closing Index Level on any Autocall Valuation Date is not greater than or equal to the Autocall Level, the Notes will not be automatically called by the Bank.

Contingent Principal Protection

20.00% contingent principal protection. The Notes provide contingent principal protection at maturity if the Final Index Level on the Final Valuation Date is greater than or equal to the Barrier Level (which is 80.00% of the Initial Index Level). If the Final Index Level on the Final Valuation Date is less than the Barrier Level, a holder of the Notes will be fully exposed to any negative performance of the Index, meaning that substantially all of such holder's investment may be lost (subject to a minimum principal repayment of \$1.00 per Note).

*The Closing Index Level reflects the gross total return performance of the Target Index as reduced by the Adjusted Return Factor. The Closing Index Level on March 31, 2026 was 2,877.41. The Adjusted Return Factor as a percentage of the Closing Index Level on March 31, 2026 was approximately 4.69%. The foregoing percentage amount is not an estimate or forecast of what any such percentage amount may be over the term of the Notes. The annual dividend yield on the Target Index as of March 31, 2026 was 3.86%, representing an aggregate dividend yield of approximately 30.36% annually compounded over the term of the Notes on the assumption that the dividends paid on the securities comprising the Target Index remain constant.

SSP7832.

Index

Whether there is a return on the Notes through the Coupon Payments and whether the Principal Amount is returned at maturity is based on the performance of the Bank's proprietary index, Scotiabank Canada Top 30 Large Cap Dividend Index 135 AR (the "Index"). The Index aims to track the gross total return performance of the Scotiabank Canada Top 30 Large Cap Dividend Index TR (the "Target Index"), subject to reduction for a synthetic dividend of 135 index points per annum calculated daily in arrears at the time the Index is calculated (the "Adjusted Return Factor"). The Target Index is a gross total return index that reflects the applicable price changes of its constituent securities and any dividends and distributions paid in respect of such securities. The performance of the Index will vary above or below the price return version of the Target Index, which version excludes dividends and distributions, depending on whether the amount and timing of reinvested dividends and/or distributions reflected in the Target Index outweighs the impact of the Adjusted Return Factor on the Index. For the calculation of the level of the Target Index, any dividends or other distributions paid on the constituent securities of the Target Index are reinvested across all the constituent securities of the Target Index. The Bank developed, and is the owner, provider and sponsor of the Index and the Target Index (the "Index Sponsor"). Solactive AG is the index administrator, acting as the calculation agent of the Index and Target Index (the "Index Administrator").

The Index was launched on February 18, 2026. Accordingly, there is very limited performance history to evaluate the performance of the Index. The level of the Index may be affected by the volatility of the prices of the equity securities of the issuers comprising the Target Index, meaning that such prices can fluctuate and change considerably in relatively short periods and the performance of such prices cannot be predicted for any future period and as a result an investment linked to Index levels may also be volatile. There is no assurance of the ability of issuers comprising the Target Index to declare and pay dividends or make distributions in respect of the constituent securities of the Target Index or to sustain or increase such dividends and distributions at or above historical levels. Prospective investors are urged to consult publicly available sources for the levels of the Index and the Target Index and the patterns of fluctuations and changes in the levels of the Index and the Target Index and the prices and trading patterns of the constituent securities of the Target Index before investing in the Notes. See "Risk Factors" in the pricing supplement. The common shares of the Bank may be included in the Target Index.

The Notes do not represent a direct or indirect investment in the Index, the Target Index, or the constituent securities of the Target Index, and holders will have no right or entitlement to such securities, including voting rights or the right to receive any dividends, distributions or other income or amounts accruing or paid thereon. The Closing Index Level reflects the gross total return performance of the Target Index as reduced by the Adjusted Return Factor. The Closing Index Level on March 31, 2026 was 2,877.41. The Adjusted Return Factor as a percentage of the Closing Index Level on March 31, 2026 was approximately 4.69%. The foregoing percentage amount is not an estimate or forecast of what any such percentage amount may be over the term of the Notes. The annual dividend yield on the Target Index as of March 31, 2026 was 3.86%, representing an aggregate dividend yield of approximately 30.36% annually compounded over the approximately 7 year term of the Notes on the assumption that the dividends paid on the securities comprising the Target Index remain constant. The foregoing dividend yield information is for comparative purposes only and is not an indication of any future dividends that might be paid or payable on such securities. There is no requirement for the Bank to hold any interest in the Index, the Target Index or the constituent securities of the Target Index.

Initial Valuation Date

May 13, 2026 (the "Initial Valuation Date"), provided that if such day is not an Exchange Business Day then the Initial Valuation Date will be the first succeeding day that is an Exchange Business Day, subject to the occurrence of any special circumstances (see "Special Circumstances" in the pricing supplement).

Final Valuation Date

May 9, 2033 (the "Final Valuation Date"), provided that if such day is not an Exchange Business Day then the Final Valuation Date will be the immediately preceding Exchange Business Day, subject to the Notes being automatically called and the occurrence of any special circumstances (see "Special Circumstances" in the pricing supplement).

Valuation Dates, Payment Dates and Call Dates

The specific Coupon Valuation Dates, Autocall Valuation Dates, Payment Dates and Call Dates for the Notes are set forth in the pricing supplement (see "Valuation Dates, Payment Dates and Call Dates" in the pricing supplement), subject to the occurrence of any special circumstances (see "Special Circumstances" in the pricing supplement) and the Notes being automatically called by the Bank. If the Notes are automatically called (i.e., redeemed) by the Bank on any Call Date prior to the Maturity Date, the Notes will be cancelled, all amounts due shall be paid to holders on the applicable Payment Date and holders will not be entitled to receive any subsequent payments in respect of the Notes.

Maturity Redemption Amount

Holders of record will be entitled to an amount payable per Note if the Notes are automatically called by the Bank, or at maturity, as the case may be (in each case, the "Maturity Redemption Amount") as calculated by the Calculation Agent in accordance with the applicable formula below:

If the Closing Index Level on an Autocall Valuation Date is greater than or equal to the Autocall Level, the Maturity Redemption Amount will equal:

Principal Amount

If the Final Index Level on the Final Valuation Date is greater than or equal to the Barrier Level, the Maturity Redemption Amount will equal:

Principal Amount

If the Final Index Level on the Final Valuation Date is less than the Barrier Level, the Maturity Redemption Amount will equal:

Principal Amount + (Principal Amount × Index Return)

The Maturity Redemption Amount will be substantially less than the Principal Amount invested by an investor if the Final Index Level on the Final Valuation Date is less than the Barrier Level. The Maturity Redemption Amount will be subject to a minimum principal repayment of \$1.00 per Note. **The return on the Notes will not reflect the total return that an investor would receive if such investor owned the securities included in the Target Index.**

Autocall Level

105.00% of the Initial Index Level.

Barrier Level

80.00% of the Initial Index Level.

Index Return

The Index Return on any valuation date is an amount expressed as a percentage (which can be zero, positive or negative) calculated by the Calculation Agent in accordance with the following formula:

$$\text{(Closing Index Level – Initial Index Level)} \div \text{Initial Index Level}$$

Closing Index Level

The official closing level or value of the Index on a given day as calculated and announced by the Index Administrator on an Exchange Business Day.

Initial Index Level

The Closing Index Level on the Initial Valuation Date.

Final Index Level

The Closing Index Level on an Autocall Valuation Date or the Final Valuation Date, as the case may be.

Currency

The Notes are denominated in Canadian dollars and any amounts owing under the Notes will be payable in Canadian dollars.

Listing and Secondary Market

The Notes will not be listed on any exchange or marketplace. Scotia Capital Inc. will use reasonable efforts under normal market conditions to provide a daily secondary market for the sale of the Notes but reserves the right to elect not to do so at any time in the future, in its sole and absolute discretion, without prior notice to holders.

Eligibility for Investment

Eligible for RRSPs, RRIAs, RESPs, RDSPs, DPSPs, TFSAs and FHSAs.

Fees and Expenses

There is no selling concession fee payable to the Dealers in respect of the Notes. A fee of up to \$0.15 per Note sold (or up to 0.15% of the Principal Amount) will be payable directly by the Bank to CIBC World Markets Inc. at closing for acting as the independent agent. The payment of these fees will not reduce the amount on which the Maturity Redemption Amount payable on the Notes is calculated.

HYPOTHETICAL EXAMPLES

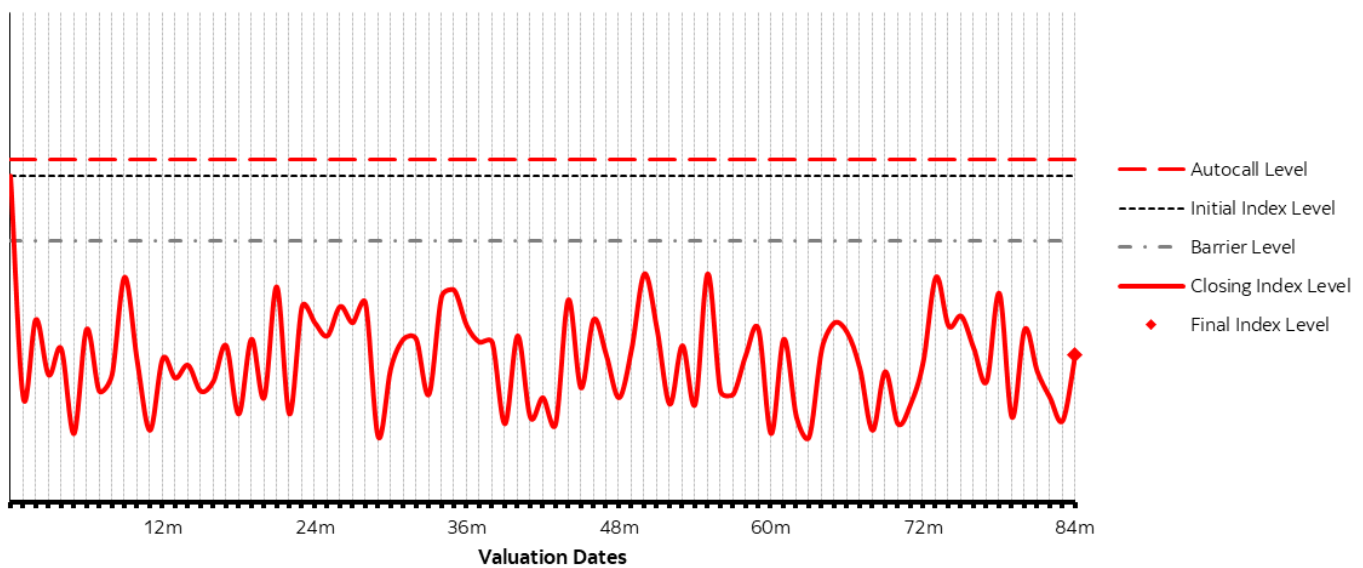

The following hypothetical examples show how the Coupon Payments and Maturity Redemption Amount would be calculated and determined based on certain hypothetical values and assumptions that are set out below. **These examples are for illustrative purposes only and should not be construed as an estimate or forecast of the performance of the Index or the return that an investor might realize on the Notes.** The return on the Notes will be calculated based on the performance of the Index, which reflects the gross total return performance of the Target Index as reduced by the Adjusted Return Factor. Certain dollar amounts are rounded to the nearest whole cent and “\$” refers to the relevant currency for the specific hypothetical dollar amounts and hypothetical prices that the context requires.

Hypothetical values for calculations:

Initial Index Level*:	100.00
Barrier Level:	80.00% of the Initial Index Level = 80.00% × 100.00 = 80.00
Autocall Level:	105.00% of the Initial Index Level = 105.00% × 100.00 = 105.00

**The Initial Index Level of 100.00 is a hypothetical Initial Index Level that has been chosen for illustrative purposes only and does not represent either the actual Initial Index Level or an estimate or forecast thereof. The actual Initial Index Level is equal to the Closing Index Level on the Initial Valuation Date.*

Example #1 – The Notes are not automatically called as the Closing Index Level on each Autocall Valuation Date is less than the Autocall Level. The Final Index Level on the Final Valuation Date is less than the Barrier Level.

Since the Final Index Level (45.00) on the Final Valuation Date is less than the Barrier Level, the Maturity Redemption Amount is calculated as follows:

Principal Amount + (Principal Amount × Index Return)

$$\$100.00 + (\$100.00 \times -55.00\%) = \$45.00 \text{ per Note}$$

In this example, since the Closing Index Level is less than the Barrier Level on all Coupon Valuation Dates, an investor would not receive any Coupon Payments.

An investor would receive a Maturity Redemption Amount of \$45.00 per Note on the Maturity Date, which is equivalent to an annual compound rate of return of approximately –10.78% per Note.

Example #2 – The Notes are not automatically called as the Closing Index Level on each Autocall Valuation Date is less than the Autocall Level. The Final Index Level on the Final Valuation Date is greater than or equal to the Barrier Level.

Since the Final Index Level (100.00) on the Final Valuation Date is greater than the Barrier Level, the Maturity Redemption Amount is calculated as follows:

Principal Amount

\$100.00 per Note

In this example, since the Closing Index Level is less than the Barrier Level on the first to the eighty-third Coupon Valuation Dates, an investor would not receive Coupon Payments for the related Payment Dates.

Since the Closing Index Level is greater than the Barrier Level on the final Coupon Valuation Date, an investor would receive the final Coupon Payment, which includes a Variable Return and the Memory Amount for the first to the eighty-third Payment Dates, payable on the final Payment Date, calculated as follows:

Fixed Return + Variable Return + Memory Amount

$\$0.6675 + (\$100.00 \times (0.10\% \times (0.00\% + 20.00\%))) + (\$0.6675 \times 83) = \$56.09$ per Note

An investor would receive aggregate Coupon Payments of \$56.09 per Note, and a Maturity Redemption Amount of \$100.00 per Note on the Maturity Date, which is equivalent to an annual compound rate of return of approximately 6.57% per Note.

Example #3 – The Notes are automatically called on the first Autocall Valuation Date as the Closing Index Level on the first Autocall Valuation Date is greater than or equal to the Autocall Level.

Since the Closing Index Level (110.00) on the first Autocall Valuation Date is greater than the Autocall Level, the Maturity Redemption Amount is calculated as follows:

Principal Amount

\$100.00 per Note

In this example, since the Closing Index Level is less than the Barrier Level on the first ten Coupon Valuation Dates, an investor would not receive Coupon Payments for the related Payment Dates.

Since the Closing Index Level (81.00) is greater than the Barrier Level on the eleventh Coupon Valuation Date and on the immediately preceding Payment Date no Coupon Payment was paid, an investor would receive the eleventh Coupon Payment, which includes a Variable Return and the Memory Amount for the first ten Payment Dates, payable on the eleventh Payment Date, calculated as follows:

Fixed Return + Variable Return + Memory Amount

$\$0.6675 + (\$100.00 \times (0.10\% \times (-19.00\% + 20.00\%))) + (\$0.6675 \times 10) = \$7.3435$ per Note

Since the Closing Index Level is greater than the Barrier Level on the twelfth Coupon Valuation Date and on the immediately preceding Payment Date a Coupon Payment was paid, an investor would receive a Coupon Payment, which includes a Variable Return and a Memory Amount equal to \$0.00, payable on the twelfth Payment Date, calculated as follows:

Fixed Return + Variable Return + Memory Amount

$\$0.6675 + (\$100.00 \times (0.10\% \times (10.00\% + 20.00\%))) + \$0.00 = \$0.6975$ per Note

An investor would receive aggregate Coupon Payments of \$8.041 per Note, and a Maturity Redemption Amount of \$100.00 per Note, which is equivalent to an annual compound rate of return of approximately 8.04% per Note.

DISCLAIMER

No securities regulatory authority has in any way passed upon the merits of the securities referred to herein and any representation to the contrary is an offence. The Notes are not principal protected (subject to a minimum principal repayment of \$1.00 per Note) and an investor may receive substantially less than the original principal amount at maturity. A person should reach a decision to invest in the Notes only after carefully considering, with their investment, legal, accounting, tax and other advisors, the suitability of the Notes in light of their investment objectives and the information set out in the Prospectus. The Bank, the Calculation Agent, Scotia Capital Inc. and CIBC World Markets Inc. make no recommendation as to the suitability of the Notes for investment by any particular person. The Notes have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "1933 Act"), or any State securities laws and, subject to certain exceptions, may not be offered for sale, sold or delivered, directly or indirectly, in the United States, its territories or possessions or to or for the account or benefit of U.S. persons within the meaning of Regulation S under the 1933 Act. In addition, the Notes may not be offered or sold to residents of any jurisdiction or country in Europe. "Scotiabank" and "Scotiabank Global Banking and Markets" are registered trademarks of The Bank of Nova Scotia. Scotia Capital Inc. is a wholly-owned subsidiary of The Bank of Nova Scotia.

Amounts paid to holders of the Notes will depend on the performance of the underlying interests. Unless otherwise specified in the Prospectus, the Bank does not guarantee that any of the principal amount of the Notes will be paid, or guarantee that any return will be paid on the Notes, at or prior to maturity (in each case, subject to a minimum principal repayment of \$1.00 per Note). Purchasers could lose substantially all of their investment in the Notes. The Notes are not appropriate investments for persons who do not understand the risks associated with structured products or derivatives. A purchaser of the Notes will be exposed to fluctuations and changes in the levels of the Index to which the Notes are linked. The Index levels may be volatile and an investment linked to Index levels may also be volatile. Purchasers should read carefully the "Risk Factors" sections in the Prospectus.

The Notes will not constitute deposits under the *Canada Deposit Insurance Corporation Act* or under any other deposit insurance regime. The Notes have not been rated and will not be insured by the Canada Deposit Insurance Corporation or any other entity and therefore the payments to investors will be dependent upon the financial health and creditworthiness of the Bank.

Scotia Capital Inc. is a wholly owned subsidiary of the Bank. Consequently, the Bank is a related and connected issuer of Scotia Capital Inc. within the meaning of applicable securities legislation. See "Plan of Distribution" in the Prospectus.

The information contained herein, while obtained from sources believed to be reliable, is not guaranteed as to its accuracy or completeness.

THE INDEX ADMINISTRATOR

The Bank is the Index Sponsor. The Bank is not related to the Index Administrator, and as such: (a) the Notes are not issued, endorsed, sponsored or promoted by and are not financial or legal obligations of such Index Administrator; (b) the trade names, service marks, trademarks or registered trademarks of the Index and Target Index are the property of the Bank; (c) the Index Administrator makes no warranties and bears no liabilities with respect to the Notes or the administration or operation of the Notes; (d) the Notes have not been reviewed by the Index Administrator as to their legality or their suitability for investment; and (e) none of the Bank, the Dealers or any of their respective affiliates or associates can give any assurance that events which have occurred prior to the date of the pricing supplement have been adequately disclosed by the constituents of the Target Index and how such an event would affect the levels of the Index or Target Index or the value of the underlying interests (and therefore the level of the Index or Target Index at the time the Notes are priced). Subsequent disclosure of any such events or the disclosure of or failure to disclose material events concerning the Index, the Target Index or the Index Administrator or the underlying interests could affect the amounts that may be payable on the Notes and therefore the market value of the Notes in a secondary market, if any.

Information regarding the Index, the Target Index and Index Administrator may be obtained from various public sources including the Index Administrator's website and other sources publicly disseminated by the Index Administrator or the constituents of the Target Index. The Bank and the Dealers or any of their respective affiliates or associates are not responsible for public disclosure of information by any unrelated party, including the Index Administrator and the constituents of the Target Index, whether contained in that parties' regulatory filings, disclosure documents or otherwise.

The Bank and any Dealer appointed in respect of the offering of the Notes makes no representation as to the performance of the Index, the Target Index or the underlying interests. A prospective investor should undertake such independent investigation of an Index or Target Index and their underlying interests as the investor considers necessary in order to make an informed decision as to the merits of an investment in the Notes.

INDEX CALCULATION AGREEMENT BETWEEN THE INDEX ADMINISTRATOR AND THE BANK

The Index Administrator and the Bank have entered into an index calculation agreement (the "Index Calculation Agreement") in which the Bank, as the owner and provider and sponsor of the Index and the Target Index, has retained the Index Administrator to calculate, administer and publish the Index and Target Index.

This financial instrument is not sponsored, promoted, sold or supported in any other manner by Solactive AG nor does Solactive AG offer any express or implicit guarantee or assurance either with regard to the results of using the Index and/or Index trademark or the "Index Price" (as defined in the Index Calculation Agreement) at any time or in any other respect. The Index is administered, calculated and published by Solactive AG. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards the Bank, Solactive AG has no obligation to point out errors in the Index to third parties including but not limited to investors and/or financial intermediaries of the financial instrument. Neither publication of the Index by Solactive AG nor the licensing of the Index or Index trademark for the purpose of use in connection with the financial instrument constitutes a recommendation by Solactive AG to invest capital in said financial instrument nor does it in any way represent an assurance or opinion of Solactive AG with regard to any investment in this financial instrument.
