

Pricing Supplement No. 4332 to the Short Form Base Shelf Prospectus dated March 4, 2024 and the Prospectus Supplement thereto dated March 5, 2024.

No securities regulatory authority has expressed an opinion about these securities and it is an offence to claim otherwise.

This pricing supplement together with the short form base shelf prospectus dated March 4, 2024 and the prospectus supplement dated March 5, 2024 to which it relates, as amended or supplemented, and each document incorporated by reference into such prospectus, constitutes a public offering of these securities only in those jurisdictions where they may be lawfully offered for sale and therein only by persons permitted to sell such securities.

The securities to be issued hereunder have not been, and will not be, registered under the United States Securities Act of 1933, as amended and, subject to certain exceptions, may not be offered, sold or delivered, directly or indirectly, in the United States of America or for the account or benefit of U.S. persons.

September 11, 2024

**The Bank of Nova Scotia
Senior Notes (Principal at Risk Notes)
Index Linked Notes**

**BNS Core Canadian Large Cap (AR) Index Buffer Plus Notes, Series 2F (CAD)
Maximum \$30,000,000 (300,000 Notes)
Due September 20, 2029**

The Bank of Nova Scotia (the "Bank") is offering up to \$30,000,000 BNS Core Canadian Large Cap (AR) Index Buffer Plus Notes, Series 2F (CAD) (the "Notes"). The Notes are principal at risk notes that offer a return linked to the Solactive Core Canadian Large Cap 115 AR Index (the "Index"), which aims to track the gross total return performance of the Solactive Core Canadian Large Cap Index TR (the "Target Index"), subject to reduction for a synthetic dividend of 115 index points per annum calculated daily in arrears at the time the Index is calculated (the "Adjusted Return Factor"). Whether there is a return on the Notes and whether the Principal Amount is returned at maturity is based on the performance of the Index. **The return on the Notes will not reflect the total return that an investor would receive if such investor owned the securities included in the Target Index.** If the Index Return on the Final Valuation Date is greater than or equal to -5.00%, a holder of the Notes will benefit from such Index Return, as adjusted by the Buffer (5.00%), on maturity of the Notes subject to a 585.00% Participation Rate. If the Index Return on the Final Valuation Date is equal to -5.00%, a holder of the Notes will receive only the Principal Amount at maturity. If the Index Return on the Final Valuation Date is less than -5.00%, a holder of the Notes will be exposed to such negative performance of the Index, as adjusted by the Buffer, meaning that a substantial amount of such holder's investment may be lost (subject to a minimum principal repayment of \$5.00 per Note). Investors should note that in order for the level of the Index to increase, the level of the Target Index must increase by more than 115 index points per annum from the Initial Valuation Date to the Final Valuation Date. See "Risk Factors" in this pricing supplement. The Index Return will equal the performance of the Index measured on the Initial Valuation Date and on the Final Valuation Date, expressed as a percentage (which can be zero, positive or negative). See *Appendix D* and "Suitability for Investment" in this pricing supplement.

The Notes described in this pricing supplement will be delivered together with the Bank's short form base shelf prospectus dated March 4, 2024 establishing the Bank's senior (principal at risk) note program (the "base shelf prospectus") and a prospectus supplement, which generally describes index linked notes that may be offered under such program, dated March 5, 2024 (the "product supplement").

The Notes will not constitute deposits insured under the *Canada Deposit Insurance Corporation Act* or under any other deposit insurance regime.

An investment in the Notes involves risks. The Notes are not designed to be alternatives to fixed income or money market instruments. The Notes are only appropriate investments for persons who understand the risks associated with structured products and derivatives. The Notes are considered to be "specified derivatives" under applicable Canadian securities laws. None of the Bank, the Investment Dealers or any of their respective affiliates, or any other person guarantees that investors in the Notes will receive an amount equal to their original investment (subject to a minimum principal repayment of \$5.00 per Note), or guarantees that any return will be paid on the Notes, at or prior to maturity. The Maturity Redemption Amount will depend on the performance of the Index. An investor could lose a substantial amount of his or her investment in the Notes (subject to a minimum principal repayment of \$5.00 per Note). See "Risk Factors".

**Price: \$100.00 per Note
Minimum Subscription: \$5,000 (50 Notes)**

	Price to Public	Investment Dealer Fees ⁽²⁾	Net Proceeds to the Bank
Per Note	\$100.00	\$0.00	\$100.00
Total ⁽¹⁾	\$30,000,000	\$0.00	\$30,000,000

(1) Reflects the maximum offering size for the Notes. **There is no minimum amount of funds that must be raised under this offering. This means that the Bank could complete this offering after raising only a small proportion of the offering amount set out above.**

(2) There is no selling concession fee payable to the Investment Dealers in respect of the Notes. A fee of up to \$0.15 per Note sold (or up to 0.15% of the Principal Amount) will be payable directly by the Bank to Desjardins Securities Inc. at closing for acting as the independent agent.

The expected estimated value of the Notes as of the date of this pricing supplement is \$96.42 per \$100.00 in Principal Amount, which is less than the price at which the Notes are being offered. The actual value of the Notes at any given time will reflect a variety of factors, cannot be predicted with accuracy and may be less than the estimated value. The estimated value was determined by the Bank on the pricing date of the Notes and is not an indication of actual profit to the Bank or any of its affiliates. See "Determination of Estimated Value" and "Risk Factors" in this pricing supplement and "Estimated Value of the Notes" in the base shelf prospectus.

Prospectus for Notes and Capitalized Terms

The Notes described in this pricing supplement will be issued under the Bank's senior (principal at risk) note program and will be direct senior unsecured and unsubordinated debt securities. The Notes are described in three separate documents: (1) the base shelf prospectus, (2) the product supplement, and (3) this pricing supplement which contains the specific terms (including pricing information) about the Notes being offered, all of which, collectively, constitute the "prospectus" in respect of such Notes. Each of these documents should be read and considered carefully before a purchaser makes an investment decision in respect of the Notes. See "About this Prospectus for Notes" in the base shelf prospectus. A copy of the prospectus for the Notes will be posted at www.scotianotes.com.

Any capitalized terms used in this pricing supplement and not defined herein have the meaning ascribed to them in the product supplement or the base shelf prospectus, as the case may be.

Documents Incorporated by Reference

This pricing supplement is deemed to be incorporated by reference into the base shelf prospectus solely for the purpose of the Notes issued hereunder. Other documents are also incorporated or deemed to be incorporated by reference into the base shelf prospectus and reference should be made to the base shelf prospectus for full particulars.

Any statement contained or contemplated in a document incorporated or deemed to be incorporated by reference in the base shelf prospectus or in this pricing supplement will be deemed to be modified or superseded for purposes of this pricing supplement to the extent that a statement contained herein or in any other subsequently filed document which also is or is deemed to be incorporated by reference in the base shelf prospectus or in this pricing supplement modifies or supersedes such statement. The modifying or superseding statement need not state that it has modified or superseded a prior statement or include any other information set forth in the document that it modifies or supersedes. The making of a modifying or superseding statement will not be deemed an admission for any purpose that the modified or superseded statement, when made, constituted a misrepresentation, an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made. Any statement so modified or superseded will not be deemed, except as so modified or superseded, to constitute a part of this pricing supplement.

Marketing Materials

The marketing materials in respect of the Notes dated the date hereof and filed with the securities regulatory authorities in each province and territory of Canada are specifically incorporated by reference into this pricing supplement. Any additional marketing materials (as defined in National Instrument 41-101 - *General Prospectus Requirements*) filed with the securities commission or similar authority in each of the provinces and territories of Canada in connection with this offering on or after the date hereof but prior to the termination of the distribution of the Notes under this pricing supplement (including any amendments to, or an amended version of, the marketing materials) are deemed to be incorporated by reference herein. Any marketing materials are not part of this pricing supplement to the extent that the contents of the marketing materials have been modified or superseded by a statement contained in an amendment to this pricing supplement.

Forward-looking Statements

From time to time, the Bank's public communications include oral or written forward-looking statements. Statements of this type are included in this document, and may be included in other filings with Canadian securities regulators or the U.S. Securities and Exchange Commission, or in other communications. In addition, representatives of the Bank may include forward-looking statements orally to analysts, investors, the media and others. All such statements are made pursuant to the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995 and any applicable Canadian securities legislation. Forward-looking statements may include, but are not limited to, statements made in this document, the Management's Discussion and Analysis in the Bank's 2023 Annual Report under the headings "Outlook" and in other statements regarding the Bank's objectives, strategies to achieve those objectives, the regulatory environment in which the Bank operates, anticipated financial results, and the outlook for the Bank's businesses and for the Canadian, U.S. and global economies. Such statements are typically identified by words or phrases such as "believe," "expect," "aim," "achieve," "foresee," "forecast," "anticipate," "intend," "estimate," "plan," "goal," "strive," "target," "project," "commit," "objective," and similar expressions of future or conditional verbs, such as "will," "may," "should," "would," "might," "can" and "could" and positive and negative variations thereof.

By their very nature, forward-looking statements require the Bank to make assumptions and are subject to inherent risks and uncertainties, which give rise to the possibility that the Bank's predictions, forecasts, projections, expectations or conclusions will not prove to be accurate, that the Bank's assumptions may not be correct and that the Bank's financial performance objectives, vision and strategic goals will not be achieved.

The Bank cautions readers not to place undue reliance on these statements as a number of risk factors, many of which are beyond the Bank's control and effects of which can be difficult to predict, could cause the Bank's actual results to differ materially from the expectations, targets, estimates or intentions expressed in such forward-looking statements.

The future outcomes that relate to forward-looking statements may be influenced by many factors, including but not limited to: general economic and market conditions in the countries in which the Bank operates and globally; changes in currency and interest rates; increased funding costs and market volatility due to market illiquidity and competition for funding; the failure of third parties to comply with their obligations to the Bank and its affiliates; changes in monetary, fiscal, or economic policy and tax legislation and interpretation; changes in laws and regulations or in supervisory expectations or requirements, including capital, interest rate and liquidity requirements and guidance, and the effect of such changes on funding costs; geopolitical risk; changes to the Bank's credit ratings; the possible effects on the Bank's business of war or terrorist actions and unforeseen consequences arising from such actions; technological changes and technology resiliency; operational and infrastructure risks; reputational risks; the accuracy and completeness of information the Bank receives on customers and counterparties; the timely development and introduction of new products and

services, and the extent to which products or services previously sold by the Bank require the Bank to incur liabilities or absorb losses not contemplated at their origination; the Bank's ability to execute its strategic plans, including the successful completion of acquisitions and dispositions, including obtaining regulatory approvals; critical accounting estimates and the effect of changes to accounting standards, rules and interpretations on these estimates; global capital markets activity; the Bank's ability to attract, develop and retain key executives; the evolution of various types of fraud or other criminal behaviour to which the Bank is exposed; anti-money laundering; disruptions or attacks (including cyberattacks) on the Bank's information technology, internet connectivity, network accessibility, or other voice or data communications systems or services, which may result in data breaches, unauthorized access to sensitive information, and potential incidents of identity theft; increased competition in the geographic and in business areas in which the Bank operates, including through internet and mobile banking and non-traditional competitors; exposure related to significant litigation and regulatory matters; climate change and other environmental and social risks, including sustainability that may arise, including from the Bank's business activities; the occurrence of natural and unnatural catastrophic events and claims resulting from such events; inflationary pressures; Canadian housing and household indebtedness; the emergence or continuation of widespread health emergencies or pandemics, including their impact on the global economy, financial market conditions and the Bank's business, results of operations, financial condition and prospects; and the Bank's anticipation of and success in managing the risks implied by the foregoing. A substantial amount of the Bank's business involves making loans or otherwise committing resources to specific companies, industries or countries. Unforeseen events affecting such borrowers, industries or countries could have a material adverse effect on the Bank's financial results, businesses, financial condition or liquidity. These and other factors may cause the Bank's actual performance to differ materially from that contemplated by forward-looking statements. The Bank cautions that the preceding list is not exhaustive of all possible risk factors and other factors could also adversely affect the Bank's results, for more information, please see the "Risk Management" section of the Bank's 2023 Annual Report, as may be updated by quarterly reports.

Material economic assumptions underlying the forward-looking statements are set out in the 2023 Annual Report under the headings "Outlook", as updated by quarterly reports. The "Outlook" and "2024 Priorities" sections are based on the Bank's views and the actual outcome is uncertain. Readers should consider the above-noted factors when reviewing these sections. When relying on forward-looking statements to make decisions with respect to the Bank and its securities, investors and others should carefully consider the preceding factors, other uncertainties and potential events.

Any forward-looking statements contained in the 2023 Annual Report represent the views of management only as of the date thereof and are presented for the purpose of assisting the Bank's shareholders and analysts in understanding the Bank's financial position, objectives and priorities, and anticipated financial performance as at and for the periods ended on the dates presented, and may not be appropriate for other purposes. Except as required by law, the Bank does not undertake to update any forward-looking statements, whether written or oral, that may be made from time to time by or on its behalf.

Not all products and services are offered in all jurisdictions.

The Bank of Nova Scotia
Senior Notes (Principal at Risk Notes)
Index Linked Notes

BNS Core Canadian Large Cap (AR) Index Buffer Plus Notes, Series 2F (CAD)
Maximum \$30,000,000 (300,000 Notes)
Due September 20, 2029

Issuer

The Bank of Nova Scotia (the “Bank”).

Investment Dealers

Scotia Capital Inc. and Desjardins Securities Inc.

Desjardins Securities Inc., a dealer to which the Bank is neither related nor connected, participated in the due diligence activities performed by the Investment Dealers in respect of the offering, but did not participate in the structuring and pricing of the offering or the calculation of, or review the calculation of, the initial estimated value of the Notes. See “Plan of Distribution” in the base shelf prospectus.

Issue Size

Maximum \$30,000,000 (300,000 Notes). The Bank reserves the right to change the maximum Issue Size in its sole and absolute discretion.

Principal Amount

\$100.00 per Note (the “Principal Amount”).

Issue Date

The Notes will be issued on or about September 20, 2024, or such other date as may be agreed between the Bank and the Investment Dealers.

CUSIP

06418ME59.

Fundserv Code

SSP5093.

Notes may be purchased through dealers and other firms that facilitate purchase and related settlement through a clearing and settlement service operated by Fundserv. See “Listing and Secondary Market”.

Issue Price

100.00% of the Principal Amount.

Maturity Date

September 20, 2029 (approximately a 5 year term) (the “Maturity Date”). See “Description of Index Linked Notes – Maturity Date” and “Description of Index Linked Notes – Amounts Payable” in the product supplement.

Minimum Investment

\$5,000 (50 Notes).

Status/Rank

The Notes will be direct senior unsecured and unsubordinated obligations of the Bank and will rank equally with all other present and future direct senior unsecured and unsubordinated indebtedness of the Bank, subject to certain priorities under applicable law.

Credit Rating

As of the date of this pricing supplement, the Bank’s direct senior unsecured and unsubordinated obligations with a term to maturity of one year or more were rated AA by DBRS Limited, A+ by Standard & Poor’s, AA by Fitch Ratings and Aa2 by Moody’s Investors Service, Inc. **However, the Notes have not been and will not be rated by any credit rating organization. There can be no assurance that if the Notes were specifically rated by these rating agencies that they would have the same rating as the Bank’s unsecured and unsubordinated obligations with a term to maturity of one year or more. A rating is not a recommendation to buy, sell or hold investments, and may be subject to revision or withdrawal at any time by the relevant rating agency.**

Index

Whether there is a return on the Notes and whether the Principal Amount is returned at maturity is based on the performance of the Solactive Core Canadian Large Cap 115 AR Index (the “Index”). The Index aims to track the gross total return performance of the Solactive Core Canadian Large Cap Index TR (the “Target Index”), subject to reduction for a synthetic dividend of 115 index points per annum calculated daily in arrears at the time the Index is calculated (the “Adjusted Return Factor”). The Target Index is a gross total return index that reflects the applicable price changes of its constituent securities and any dividends and distributions paid in respect of such securities. See “Description of Index Linked Notes – Indices” in the product supplement. See *Appendix D* to this pricing supplement for summary information regarding the Index and the Target Index.

The Notes do not represent a direct or indirect investment in the Index, the Target Index or the constituent securities of the Target Index, and holders will have no right or entitlement to such securities, including voting rights or the right to receive any dividends, distributions or other income or amounts accruing or paid thereon. The Closing Index Level reflects the gross total return performance of the Target Index as reduced by the Adjusted Return Factor. The Closing Index Level on August 30, 2024 was 1,869.12. The Adjusted Return Factor as a percentage of the Closing Index Level on August 30, 2024 was approximately 6.15%. The foregoing percentage amount is not an estimate or forecast of what any such percentage amount may be over the term of the Notes. The annual dividend yield on the Target Index as of August 30, 2024 was 5.22%, representing an aggregate dividend yield of approximately 28.97% annually compounded over the approximately 5 year term of the Notes on the assumption that the dividends paid on the securities comprising the Target Index remain constant. The foregoing dividend yield information is for comparative purposes only and is not an indication of any future dividends that might be paid or payable on such securities. There is no requirement for the Bank to hold any interest in the Index, the Target Index or the constituent securities of the Target Index.

Initial Valuation Date

September 20, 2024, provided that if such day is not an Exchange Business Day then the Initial Valuation Date will be the first succeeding day that is an Exchange Business Day, subject to the occurrence of any special circumstances (see “Special Circumstances” in this pricing supplement).

Final Valuation Date

September 14, 2029, provided that if such day is not an Exchange Business Day then the Final Valuation Date will be the immediately preceding Exchange Business Day, subject to the occurrence of any special circumstances (see “Special Circumstances” in this pricing supplement).

Record Date

September 19, 2029, provided that if such day is not a Business Day then the Record Date will be the immediately preceding Business Day.

Maturity Redemption Amount

Holders of record on the Record Date will be entitled to an amount payable per Note at maturity (the “Maturity Redemption Amount”) as calculated by the Calculation Agent in accordance with the applicable formula below:

- If the Index Return on the Final Valuation Date is greater than or equal to –5.00%, the Maturity Redemption Amount will equal:
 - $\text{Principal Amount} + [\text{Principal Amount} \times (\text{Index Return} + \text{Buffer}) \times \text{Participation Rate}]$
- If the Index Return on the Final Valuation Date is less than –5.00%, the Maturity Redemption Amount will equal:
 - $\text{Principal Amount} + [\text{Principal Amount} \times (\text{Index Return} + \text{Buffer})]$

If the Index Return on the Final Valuation Date is equal to –5.00%, a holder of the Notes will receive only the Principal Amount at maturity. The Maturity Redemption Amount will be less than the Principal Amount invested by an investor if the Index Return on the Final Valuation Date is less than –5.00%. The Maturity Redemption Amount will be subject to a minimum principal repayment of \$5.00 per Note. **The return on the Notes will not reflect the total return that an investor would receive if such investor owned the securities included in the Target Index.**

Certain dollar amounts will be rounded to the nearest whole cent. See *Appendix A* to this pricing supplement for a graphical depiction and table of the return profile for the Notes and *Appendix B* for hypothetical examples showing how the Maturity Redemption Amount would be determined and calculated based on certain hypothetical values and assumptions.

Index Return

The Index Return is an amount expressed as a percentage (which can be zero, positive or negative) calculated by the Calculation Agent in accordance with the following formula:

$$(\text{Final Index Level} - \text{Initial Index Level}) \div \text{Initial Index Level}$$

Note Return

The Note Return is an amount expressed as a percentage (which can be zero, positive or negative) calculated by the Calculation Agent in accordance with the following formula:

$$(\text{Maturity Redemption Amount} - \text{Principal Amount}) \div \text{Principal Amount}$$

Buffer

5.00%, applied to the Index Return on the Final Valuation Date.

Participation Rate

585.00%. Holders will benefit from the Participation Rate if the Index Return on the Final Valuation Date is greater than or equal to -5.00%.

Closing Index Level

The official closing level or value of the Index on a given day as calculated and announced by the Index Sponsor on an Exchange Business Day.

Initial Index Level

The Closing Index Level on the Initial Valuation Date.

Final Index Level

The Closing Index Level on the Final Valuation Date.

Fees and Expenses

There is no selling concession fee payable to the Investment Dealers in respect of the Notes. A fee of up to \$0.15 per Note sold (or up to 0.15% of the Principal Amount) will be payable directly by the Bank to Desjardins Securities Inc. at closing for acting as the independent agent. The payment of these fees will not reduce the amount on which the Maturity Redemption Amount payable on the Notes is calculated.

Determination of Estimated Value

The Notes are debt securities, the return on which is linked to the performance of the Index. In order to satisfy its payment obligations under the Notes, the Bank may choose to enter into certain hedging arrangements (which may include call options, put options or other derivatives) on or before the Initial Valuation Date with Scotia Capital Inc. or one of the Bank's other subsidiaries, or with a third party, but is under no obligation to do so. The terms of any such hedging arrangements would, if entered into, take into account a number of factors, including the creditworthiness of the Bank, interest rate movements, the volatility of the Index, and the tenor of the Notes.

The Issue Price of the Notes also reflects the Bank's expected profit (which may or may not be realized) based on an estimate of costs the Bank may incur in creating, issuing, maintaining and potentially hedging its obligations under the Notes. These factors result in the estimated value for the Notes on the date of this pricing supplement being less than the Issue Price of the Notes. See "Risk Factors" in this pricing supplement and "Estimated Value of the Notes" in the base shelf prospectus.

The Bank has adopted written policies and procedures for determining the estimated initial value of the Notes which include: (i) the methodologies used for valuing each type of component embedded in the Notes, (ii) the methods by which the Bank will review and test valuation to assess the quality of the prices obtained as well as the general functioning of the valuation process, and (iii) conflicts of interest.

Listing and Secondary Market

The Notes will not be listed on any exchange or marketplace. Scotia Capital Inc. will use reasonable efforts under normal market conditions to provide a daily secondary market for the sale of the Notes but reserves the right to elect not to do so at any time in the future, in its sole and absolute discretion, without prior notice to holders. Under no circumstances will Scotia Capital Inc. provide a secondary market for the Notes on or following the Final Valuation Date or at or prior to maturity if the Notes will be redeemed by the Bank as a result of the occurrence of an Extraordinary Event. See "Risk Factors Relating to the Secondary Market" in the product supplement and "Secondary Market for Notes" in the base shelf prospectus.

The sale of a Note in a secondary market (if any such secondary market exists at such time) prior to the Maturity Date will be effected at a price equal to (i) the bid price on the sale date, less (ii) any transaction charges that may or may not be levied by the relevant selling agent. The Notes may in certain circumstances be transferable through CDS and not the Fundserv network. There is no guarantee that the bid price at any time will be the highest possible price available in any secondary market for the Notes, and the actual price received by a holder and the selling terms for such secondary market sales may be varied by the relevant selling agent.

Special Circumstances

See the "Special Circumstances" section in the product supplement for a description of certain special circumstances, including a Material Index Change, a Market Disruption Event and an Extraordinary Event, which may result in an adjustment to the terms of the Notes or the calculation or timing of payments due on the Notes, or the early redemption of the Notes.

Calculation Agent

Scotia Capital Inc.

Eligibility for Investment

Eligible for RRSPs, RRFs, RESPs, RDSPs, DPSPs, TFSA and FHSA. See "Eligibility for Investment" in *Appendix C* to this pricing supplement.

Tax Information

This income tax summary is subject to the limitations and qualifications set out under the heading "Certain Canadian Federal Income Tax Considerations" in *Appendix C* to this pricing supplement.

A Resident Initial Investor should not be required to include amounts in income in respect of a Note prior to the determination of: (i) the Maturity Redemption Amount payable on the Note at maturity, or (ii) an Accelerated Value upon the occurrence of an Extraordinary Event. Absent the occurrence of an Extraordinary Event, a Resident Initial Investor will be required to include in its income for the taxation year in which the Maturity Redemption Amount becomes determinable the amount, if any, by which the Maturity Redemption Amount exceeds the Principal Amount of the Notes to the extent that such excess was not included in the Resident Initial Investor's income for a preceding taxation year. If the Maturity Redemption Amount is less than the Principal Amount of the Notes, the Resident Initial Investor will generally realize a capital loss on the redemption of the Notes.

In general, where an investor assigns or transfers a debt obligation (other than as a consequence of a repayment of the debt obligation), any interest that has accrued on the debt obligation up to the date of disposition will be included in the investor's income as interest for the taxation year in which the transfer occurs (to the extent that it has not otherwise been included in the investor's income for that year or a previous year) and excluded from the investor's proceeds of disposition of the debt obligation. Where a Resident Initial Investor assigns or transfers a Note (other than as a consequence of a repayment or redemption of the Note), the Resident Initial Investor will be required to include in its income as accrued interest, an amount equal to the amount, if any, by which the price for which the Note was assigned or transferred exceeds the Principal Amount of the Note.

A Resident Initial Investor who disposes of, or is deemed to dispose of, a Note will generally realize a capital loss to the extent that the proceeds of disposition, net of any amount included in income as interest, are less than the aggregate of the Resident Initial Investor's adjusted cost base of the Note and any reasonable costs of disposition. Resident Initial Investors who dispose of Notes other than as a consequence of the repayment or redemption of the Notes by the Bank should consult their tax advisors with respect to their particular circumstances.

Performance Disclosure

Ongoing information about the performance of the Notes will be available on the Bank's structured products website (www.scotianotes.com).

Suitability for Investment

Investors should independently determine, with their own advisors, whether an investment in the Notes is suitable for them having regard to their own investment objectives and expectations and the risk factors described under "Risk Factors" in this pricing supplement, the base shelf prospectus and the product supplement. The Notes may be suitable for investors:

- who have an investment strategy consistent with the features of the Notes;
- seeking the opportunity for what may be an enhanced return over other traditional equity or fixed rate investments and who are prepared to assume the risks associated with an investment linked to equity markets;
- who are comfortable that the return on the Notes is calculated using the performance of the Index which aims to track the gross total return performance of the Target Index as reduced by the Adjusted Return Factor. An investment in the Notes is not the same as making a direct or indirect investment in the Index, the Target Index or the constituent securities of the Target Index, including the fact that an investor will not have the right to receive any dividends, distributions or other income or amounts accruing or paid on such securities;
- who are comfortable with the return on the Notes being linked to the performance of the Index (subject to the Participation Rate and the Buffer) measured on the Initial Valuation Date and on the Final Valuation Date only, and are willing to forego all dividends, distributions and other income and amounts accruing or paid in respect of the Index, the Target Index or the constituent securities of the Target Index;
- with an investment horizon equivalent to the approximately 5 year term of the Notes who are prepared to hold the Notes to maturity;
- willing to assume the risk of losing a substantial amount of their investment (subject to a minimum principal repayment of \$5.00 per Note) if the Index Return on the Final Valuation Date is less than -5.00%;
- who have carefully considered the risks associated with an investment in the Notes; and
- willing to assume the credit risk of the Bank.

Risk Factors

Risk factors relating to the Notes include but are not limited to the following and those described in the product supplement and the base shelf prospectus under "Risk Factors":

- a holder will only receive a Maturity Redemption Amount greater than the Principal Amount if the Index Return on the Final Valuation Date is greater than -5.00%. The return on the Notes in such circumstances is subject to the Participation Rate applied to any such Index Return on the Final Valuation Date, as adjusted by the Buffer;
- a holder may only benefit from the Participation Rate and the Buffer if the Notes are held to maturity. If the Notes are sold prior to the Maturity Date in any secondary market for the Notes (if any such secondary market exists), the actual value a holder would receive for the Notes may not reflect the benefit of the Participation Rate and the Buffer;
- there may be no return payable on the Notes at maturity (subject to a minimum principal repayment of \$5.00 per Note). There will be no interest or other payments made during the term of the Notes and there can be no assurance that the Index Return will be greater than -5.00% on the Final Valuation Date;
- if the Index Return on the Final Valuation Date is less than -5.00%, an investor will be exposed to such negative performance of the Index, as adjusted by the Buffer, meaning that a substantial amount of such investor's investment may be lost (subject to a minimum principal repayment of \$5.00 per Note);
- the return on the Notes could be adversely affected by a variety of factors that influence the equities market generally and could impact the value of the constituent securities of the Target Index and in turn, the performance of the Index and the Closing Index Level, and which are

beyond the control of the Bank and the Investment Dealers, including political, geopolitical, economic, financial, social and other factors, as well as, the level of inflation, changes in interest rates and currency exchange rates, economic downturns, volatility in domestic and global financial markets, epidemics, pandemics or other public health emergencies, international or regional conflicts or wars, and various other circumstances that could influence the value of the securities in a specific market segment, industry or sector, or of a particular issuer including, corporate developments and earnings, and regulatory changes;

- the return on the Notes may be affected by specific risk factors associated with a direct investment in the issuers of the equity securities comprising the Target Index to the extent such risk factors could adversely affect the performance of the Index and the Target Index. An investor should consult documents made publicly available by the issuers comprising the Target Index under their respective profiles at www.sedarplus.ca for a description of the risks applicable to the issuers comprising the Target Index;
- the common shares of the Bank are included in the Target Index and the decisions and actions of the board of directors and management of the Bank will not take into account the effect, if any, of such decisions and actions on the Target Index, on the Index or on investors' interests generally, including any decisions or actions of the board of directors of the Bank in respect of the declaration of dividends on the common shares of the Bank;
- the Index and Target Index were launched on July 31, 2024 and January 19, 2024, respectively. Accordingly, there is very limited performance history for the Index and the Target Index to evaluate the prior performance of the Index and Target Index, and as such, the Notes may perform in unexpected ways and may involve greater risk than notes linked to one or more indices with a more established record of performance which may make it more difficult for an investor to make an informed decision with respect to the Notes;
- the Notes have not been rated and will not be insured by the Canada Deposit Insurance Corporation or any other entity and therefore the payments to investors will be dependent upon the financial health and creditworthiness of the Bank;
- none of the Bank, the Investment Dealers or any of their respective affiliates or associates have performed and will not perform any due diligence investigation or review of the Index or the Target Index, the constituent securities of the Target Index or the issuers of such securities. Information in this pricing supplement relating to the Index and the Target Index is derived from publicly available sources. None of the Bank, the Investment Dealers or any of their respective affiliates or associates have independently verified, nor do they make any representation regarding, the accuracy or completeness of the public information relating to the Index and the Target Index. Prospective investors should undertake their own independent investigation of the Index, the Target Index and the constituent securities of the Target Index in order to make an informed decision as to the merits of an investment in the Notes; and
- the estimated initial value of the Notes indicated on the cover page of this pricing supplement was determined on the pricing date of the Notes using the Bank's internal pricing models which take into account a number of variables and assumptions about future events that may prove to be incorrect, including expectations as to dividends, distributions, interest rates and volatility, the Bank's internal funding rates (which may differ from the market rates for the Bank's conventional debt securities), and the expected term of the Notes. As a result, the actual value an investor would receive if they sold the Notes in any secondary market (if any exists) at any time, should be expected to differ materially from the estimated value of the Notes determined on the pricing date of the Notes. The Notes are not designed to be short-term trading instruments. Accordingly, an investor should be able and willing to hold the Notes to the Maturity Date. See "Determination of Estimated Value" in this pricing supplement and "Estimated Value of the Notes" in the base shelf prospectus.

Investors should carefully consider with their advisors all of the information set out in the prospectus before making any potential investment in the Notes. In particular, investors should evaluate the key risks highlighted above as well as the risks described under "Risk Factors" in the base shelf prospectus and under "Risk Factors" in the product supplement.

Appendix A

Graphical Depiction of the Return Profile for the Notes

The return profile below is provided for illustration purposes only. This graph demonstrates the Note Return at maturity based on certain hypothetical Index Returns. There can be no assurance that any specific return will be achieved on the Notes. All examples assume that an investor has purchased the Notes with an aggregate principal amount of \$100.00 per Note, holds the Notes until the Maturity Date and that no special circumstances have occurred during the term of the Notes (see “Special Circumstances” in this pricing supplement).

⁽¹⁾ Holders will benefit from the Participation Rate if the Index Return on the Final Valuation Date is greater than or equal to -5.00%.

⁽²⁾ The Buffer is applied to the Index Return on the Final Valuation Date.

If the Index Return on the Final Valuation Date is greater than -5.00%, a holder of the Notes will earn a return at maturity of the Notes equal to 585.00% participation in the Index Return (as adjusted by the Buffer).

If the Index Return on the Final Valuation Date is equal to -5.00%, a holder of the Notes will receive only the Principal Amount at Maturity.

If the Final Index Level on the Final Valuation Date is less than -5.00%, a holder of the Notes will be exposed to any negative performance of the Index, as adjusted by the Buffer (5.00%), meaning that a substantial amount of such holder's investment may be lost (subject to a minimum principal repayment of \$5.00 per Note).

The table below is for illustrative purposes only and shows the Maturity Redemption Amount an investor would receive per Note based on various hypothetical Index Returns:

Index Return	Note Return	Maturity Redemption Amount	Annualized Return
100.00%	614.25%	\$714.25	48.17%
90.00%	555.75%	\$655.75	45.66%
80.00%	497.25%	\$597.25	42.97%
70.00%	438.75%	\$538.75	40.05%
60.00%	380.25%	\$480.25	36.87%
50.00%	321.75%	\$421.75	33.36%
40.00%	263.25%	\$363.25	29.43%
30.00%	204.75%	\$304.75	24.97%
20.00%	146.25%	\$246.25	19.75%
10.00%	87.75%	\$187.75	13.43%
0.00%	29.25%	\$129.25	5.27%
-4.00%	5.85%	\$105.85	1.14%
-5.00%	0.00%	\$100.00	0.00%
-6.00%	-1.00%	\$99.00	-0.20%
-10.00%	-5.00%	\$95.00	-1.02%
-20.00%	-15.00%	\$85.00	-3.20%
-30.00%	-25.00%	\$75.00	-5.59%
-40.00%	-35.00%	\$65.00	-8.25%
-50.00%	-45.00%	\$55.00	-11.27%
-60.00%	-55.00%	\$45.00	-14.76%
-70.00%	-65.00%	\$35.00	-18.94%
-80.00%	-75.00%	\$25.00	-24.21%
-90.00%	-85.00%	\$15.00	-31.57%
-100.00%	-95.00%	\$5.00	-45.07%

Appendix B

Hypothetical Examples

The following hypothetical examples show how the Index Return and Maturity Redemption Amount would be calculated and determined based on certain hypothetical values and assumptions that are set out below. **These examples are for illustrative purposes only and should not be construed as an estimate or forecast of the performance of the Index or the return that an investor might realize on the Notes.** The return on the Notes will be calculated based on the performance of the Index, which reflects the gross total return performance of the Target Index as reduced by the Adjusted Return Factor. Certain dollar amounts are rounded to the nearest whole cent and "\$" refers to the relevant currency for the specific hypothetical dollar amounts and hypothetical prices that the context requires.

Hypothetical values for calculations:

Initial Index Level*:	100.00
Buffer:	5.00%, applied to the Index Return on the Final Valuation Date
Participation Rate:	585.00%

*The Initial Index Level of 100.00 is a hypothetical Initial Index Level that has been chosen for illustrative purposes only and does not represent either the actual Initial Index Level or an estimate or forecast thereof. The actual Initial Index Level will be equal to the Closing Index Level on the Initial Valuation Date.

Example #1 – The Index Return on the Final Valuation Date is less than –5.00%.

Assume that the Final Index Level on the Final Valuation Date is 49.67

Calculate the Index Return:

$$\frac{(\text{Final Index Level} - \text{Initial Index Level})}{\text{Initial Index Level}} \\ \frac{(49.67 - 100.00)}{100.00} = -50.33\%$$

Calculate the Maturity Redemption Amount:

Since the Index Return is less than –5.00%, the Maturity Redemption Amount will be equal to:

$$\text{Principal Amount} + [\text{Principal Amount} \times (\text{Index Return} + \text{Buffer})] \\ \$100.00 + [\$100.00 \times (-50.33\% + 5.00\%)] = \$54.67 \text{ per Note}$$

In this example, an investor would receive a Maturity Redemption Amount of \$54.67 per Note on the Maturity Date, which is equivalent to an annual compound rate of return of approximately –11.38% per Note.

Example #2 – The Index Return on the Final Valuation Date is greater than or equal to –5.00%.

Assume that the Final Index Level on the Final Valuation Date is 155.32

Calculate the Index Return:

$$\frac{(\text{Final Index Level} - \text{Initial Index Level})}{\text{Initial Index Level}} \\ \frac{(155.32 - 100.00)}{100.00} = 55.32\%$$

Calculate the Maturity Redemption Amount:

Since the Index Return is greater than or equal to –5.00%, the Maturity Redemption Amount will be equal to:

$$\text{Principal Amount} + [\text{Principal Amount} \times (\text{Index Return} + \text{Buffer}) \times \text{Participation Rate}] \\ \$100.00 + [\$100.00 \times (55.32\% + 5.00\%) \times 585.00\%] = \$452.87 \text{ per Note}$$

In this example, an investor would receive a Maturity Redemption Amount of \$452.87 per Note on the Maturity Date, which is equivalent to an annual compound rate of return of approximately 35.27% per Note.

Appendix C

Certain Canadian Federal Income Tax Considerations

In the opinion of Stikeman Elliott LLP, counsel to the Bank, the following is, as of the date hereof, a summary of the principal Canadian federal income tax considerations generally applicable to the acquisition, holding and disposition of the Notes by an investor who purchases the Notes at the time of their issuance. This summary is applicable only to an investor who, for the purposes of the *Income Tax Act* (Canada) (the “Act”) and at all relevant times, is an individual (other than a trust), is or is deemed to be resident in Canada, deals at arm’s length with the Bank and the Investment Dealers, is not affiliated with the Bank and holds the Notes as capital property (a “Resident Initial Investor”). The Notes will generally be considered to be capital property to a Resident Initial Investor unless: (i) the Resident Initial Investor holds the Notes in the course of carrying on or otherwise as part of a business, or (ii) the Resident Initial Investor acquired the Notes as an adventure or concern in the nature of trade. Certain Resident Initial Investors whose Notes might not otherwise be considered to be capital property or who desire certainty with respect to the treatment of the Notes as capital property may be entitled to make an irrevocable election pursuant to subsection 39(4) of the Act to deem the Notes and every other “Canadian security” (as defined in the Act) owned by the Resident Initial Investor in the taxation year of the election and all subsequent taxation years to be capital property. This summary does not apply to any Resident Initial Investor who has entered into, or will enter into, in respect of the Notes, a “derivative forward agreement”, as that term is defined in the Act. **Prospective investors who are not Resident Initial Investors should consult their own tax advisors as to the income tax consequences to them of acquiring, holding and disposing of Notes.**

This summary is based on the current provisions of the Act and the regulations thereunder as in force on the date hereof (the “Regulations”), counsel’s understanding of the current administrative and assessing practices of the Canada Revenue Agency (the “CRA”) and all specific proposals to amend the Act and Regulations publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (the “Tax Proposals”). This summary assumes that all Tax Proposals will be enacted substantially as proposed; however, no assurance can be given that the Tax Proposals will be enacted as proposed or at all. This summary does not, except for the Tax Proposals, take into account or anticipate any changes in law or the CRA’s administrative or assessing practices, whether by legislative, governmental or judicial decision or action. This summary is not exhaustive of all possible Canadian federal income tax considerations applicable to an investment in the Notes and does not take into account provincial, territorial or foreign income tax legislation or considerations, which are not addressed in this summary.

This summary is of a general nature only and is not intended to be legal or tax advice to any investor. Investors should consult their own tax advisors for advice with respect to the income tax consequences of an investment in the Notes, based on their particular circumstances.

Payment of the Maturity Redemption Amount or Accelerated Value

In certain circumstances provisions of the Act can deem interest to accrue on a “prescribed debt obligation” (as defined for the purposes of the Act), such as the Notes. Based in part on counsel’s understanding of the CRA’s administrative practice and subject to the comments below, there should be no deemed accrual of interest on the Notes under these provisions prior to the taxation year of the Resident Initial Investor that includes the Final Valuation Date on which the Maturity Redemption Amount is determined or the date on which an Accelerated Value is determined, as applicable.

The amount, if any, by which the Maturity Redemption Amount exceeds the Principal Amount of a Note that is payable to a Resident Initial Investor will be included in the Resident Initial Investor’s income in the taxation year in which the Maturity Redemption Amount becomes determinable to the extent that such excess was not included in the Resident Initial Investor’s income for a preceding taxation year. If as the result of the occurrence of an Extraordinary Event, an Accelerated Value is paid to a Resident Initial Investor in respect of a Note, the excess (if any) of such payment over the Principal Amount of the Note would be included in the Resident Initial Investor’s income for the taxation year in which a Special Redemption Date occurs to the extent that such excess was not included in the Resident Initial Investor’s income for a preceding taxation year.

If the Maturity Redemption Amount or Accelerated Value (as applicable) received by a Resident Initial Investor on a disposition of a Note at maturity or on a Special Redemption Date (as applicable) is less than the Principal Amount of the Note, the Resident Initial Investor will generally realize a capital loss to the extent that the amount so paid is less than the Resident Initial Investor’s adjusted cost base of the Note and any reasonable costs of disposition.

Disposition of Notes

In certain circumstances, where an investor assigns or otherwise transfers a debt obligation (other than as a consequence of a repayment of the debt obligation), the amount of interest accrued on the debt obligation to that time, but unpaid, will be excluded from the proceeds of disposition of the obligation and will be required to be included as interest in computing the investor’s income for the taxation year in which the transfer occurs, except to the extent that it has been otherwise included in the investor’s income for that taxation year or a preceding taxation year. With respect to an assignment or transfer of a Note by a Resident Initial Investor (other than as a consequence of a repayment or redemption of the Note), the Resident Initial Investor will be required to include in its income as accrued interest, an amount equal to the amount, if any, by which the price for which the Note was assigned or transferred exceeds the Principal Amount of the Note.

In general, a disposition or deemed disposition of a Note by a Resident Initial Investor will give rise to a capital loss to the extent that the proceeds of disposition, net of any amount included in the Resident Initial Investor’s income as interest, are less than the aggregate of the Resident Initial Investor’s adjusted cost base of the Note and any reasonable costs of disposition.

Prior to June 25, 2024, one-half of a capital loss realized by a Resident Initial Investor must have been deducted against the taxable portion of capital gains realized in the year and may have been deducted against the taxable portion of capital gains realized in the three preceding years or in subsequent years, subject to and in accordance with the rules in the Act. Tax Proposals originally released on June 10, 2024 and revised on August 12, 2024 (the “**Capital Gains Proposals**”) would increase a Resident Initial Investor’s capital gains inclusion rate for a taxation year ending after June 24, 2024 from one-half to two-thirds, subject to a transitional rule applicable for a Resident Initial Investor’s 2024 taxation year that would reduce the capital gains inclusion rate for that taxation year to, in effect, be one-half for net capital gains realized before June 25, 2024. The Capital Gains Proposals also include provisions that would offset the increase in the capital gains inclusion rate in certain circumstances. If the Capital Gains Proposals are enacted as proposed, capital losses which are deductible against capital gains that are included in income for the 2024 or subsequent taxation years will offset an

equivalent capital gain regardless of the inclusion rate which applied at the time such capital losses were realized. Resident Initial Investors should consult their own tax advisors with respect to these Tax Proposals.

Resident Initial Investors who dispose of Notes other than as a consequence of the repayment or redemption of the Notes by the Bank should consult their tax advisors with respect to their particular circumstances.

Eligibility for Investment

The Notes, if issued on the date of this pricing supplement, would be “qualified investments” (for purposes of the Act) for trusts governed by registered retirement savings plans (“RRSPs”), registered retirement income funds (“RRIFs”), registered disability savings plans (“RDSPs”), registered education savings plans (“RESPs”), tax-free savings accounts (“TFSA”), deferred profit sharing plans (“DPSPs”) and first home savings accounts (“FHSA”), each within the meaning of the Act (other than a DPSP to which payments are made by the Bank or an employer with which the Bank does not deal at arm’s length within the meaning of the Act).

Notwithstanding the foregoing, if the Notes are “prohibited investments” (as that term is defined in the Act) for a TFSA, RRSP, RRIF, RDSP, RESP or FHSA, a holder of the TFSA, RDSP or FHSA, an annuitant of the RRSP or the RRIF, or a subscriber of the RESP, as the case may be, (each a “Plan Holder”) will be subject to a penalty tax as set out in the Act. The Notes will not be a “prohibited investment” for trusts governed by a TFSA, RRSP, RRIF, RDSP, RESP or FHSA provided that the Plan Holder of such TFSA, RRSP, RRIF, RDSP, RESP or FHSA, as applicable: (i) deals at arm’s length with the Bank for purposes of the Act, and (ii) does not have a “significant interest”, as defined in the Act, in the Bank. Plan Holders should consult their own tax advisors with respect to whether the Notes would be “prohibited investments” in their particular circumstances.

Appendix D

Summary Information Regarding the Index and the Target Index

The following is a summary description of the Solactive Core Canadian Large Cap 115 AR Index (the "Index") and the Solactive Core Canadian Large Cap Index TR (the "Target Index") based on information obtained from the website of the index sponsor, Solactive AG (the "Index Sponsor"), at www.solactive.com, except as otherwise noted herein. This website is not incorporated by reference in, and does not form part of, this pricing supplement. All information regarding the Index and Target Index contained herein, including their make-up, method of calculation and changes in their components, has been derived from publicly available sources and its accuracy or completeness cannot be guaranteed. The information contained on the website of the Index Sponsor related to the Index and Target Index reflects the policies of, and is subject to change by, the Index Sponsor. The Index Sponsor may change the terms and conditions of the Index and the Target Index and modify the methodology used to calculate the Index and the Target Index and is not obliged to provide information on any such changes or modifications. Accordingly, all information regarding the Index and Target Index contained in this pricing supplement is subject to change, including any such information reported herein as of a certain date. This pricing supplement relates only to the Notes and does not relate to the Index, the Target Index or the constituent securities of the Target Index. All dollar amounts in the following summary are quoted in Canadian dollars unless otherwise specified.

General Description of the Index and the Target Index

The Solactive Core Canadian Large Cap 115 AR Index (the "Index") aims to track the gross total return performance of the Solactive Core Canadian Large Cap Index TR (the "Target Index"), subject to reduction for a synthetic dividend of 115 index points per annum calculated daily in arrears at the time the Index is calculated (the "Adjusted Return Factor"). The Target Index is comprised of the securities of 15 issuers listed on the Toronto Stock Exchange that are equally-weighted at 6.67% on each rebalance day. See "Composition of the Target Index" below. The Target Index is rebalanced on a quarterly basis on the first business day in March, June, September and December and is also subject to adjustments for corporate actions and extraordinary events in compliance with the rules of the Index Sponsor. The Target Index is comprised of the securities of the following 15 Canadian listed issuers: Agnico Eagle Mines Limited, BCE Inc., Canadian Imperial Bank of Commerce, Canadian Tire Corporation, Limited Class A, Emera Incorporated, Enbridge Inc., Manulife Financial Corporation, Nutrien Ltd., Pembina Pipeline Corporation, Power Corporation of Canada, Suncor Energy Inc., TC Energy Corporation, TELUS Corporation, The Bank of Nova Scotia and The Toronto-Dominion Bank. The Target Index is a gross total return index that seeks to replicate the overall return from holding a portfolio consisting of the constituent securities of the Target Index, including any dividends and distributions paid in respect of such securities, without deduction of any withholding tax or other amounts to which an investor holding the constituent securities of the Target Index would typically be exposed. For the calculation of the level of the Target Index, any dividends or other distributions paid on the constituent securities of the Target Index are reinvested across all the constituent securities of the Target Index. The Target Index was first launched on January 19, 2024. The Target Index is calculated and published in Canadian dollars.

The only component of the Index is the Target Index. The Index is not rebalanced extraordinarily. The Index was launched on July 31, 2024. The Index is calculated and published in Canadian dollars. In the event the level of the Index is calculated as zero or below zero (negative), the Index will be terminated. The Index and Target Index may be terminated for other reasons in accordance with Solactive's policies.

Composition of the Target Index

The constituents of the Target Index along with their ticker symbols and weights as of August 30, 2024 are set out below. The historical composition and weighting of the Target Index does not necessarily reflect the composition and weighting of the Target Index in the future.

Constituents of the Target Index	Symbol	Weight (%)*
TC Energy Corporation	TRP	7.49%
Agnico Eagle Mines Limited	AEM	7.37%
Canadian Imperial Bank of Commerce	CM	7.26%
Canadian Tire Corporation, Limited Class A	CTC/A	7.00%
Enbridge Inc.	ENB	6.85%
Pembina Pipeline Corporation	PPL	6.78%
The Toronto-Dominion Bank	TD	6.72%
Emera Incorporated	EMA	6.67%
Manulife Financial Corporation	MFC	6.62%
Power Corporation of Canada	POW	6.57%
The Bank of Nova Scotia	BNS	6.56%
Suncor Energy Inc.	SU	6.48%
BCE Inc.	BCE	6.33%
TELUS Corporation	T	6.09%
Nutrien Ltd.	NTR	5.21%

*Percentages may not add up to 100.00% due to rounding.

Historical Performance of the Index

The Index was launched on July 31, 2024. Accordingly, there is very limited performance history for the Index. During the period between July 31, 2024 up to and including August 30, 2024, the lowest Closing Index Level was 1,769.36 on August 7, 2024 and the highest Closing Index Level was 1,869.12 on August 30, 2024. The starting Closing Index Level was 1,828.25 on July 31, 2024 and the ending Closing Index Level was 1,869.12 on August 30, 2024. **The level of the Index may be affected by the volatility of the prices of the equity securities of the issuers comprising the Target Index, meaning that such prices can fluctuate and change considerably in relatively short periods and the performance of such prices cannot be predicted for any future period and as a result an investment linked to Index levels may also be volatile. There is no assurance of the ability of issuers comprising the Target Index to declare and pay dividends or make distributions in respect of the constituent securities of the Target Index or to sustain or increase such dividends and distributions at or above historical levels.** Prospective investors are urged to consult publicly available sources for the levels of the Index and the Target Index, the patterns of fluctuations and changes in the levels of the Index and the Target Index, and the prices and trading patterns of the constituent securities of the Target Index before investing in the Notes.

The Adjusted Return Factor as a percentage of the Closing Index Level on August 30, 2024 was approximately 6.15%. The foregoing percentage amount is not an estimate or forecast of what any such percentage amount may be over the term of the Notes. The Closing Index Levels reflect the gross total return performance of the Target Index as reduced by the Adjusted Return Factor. The annual dividend yield on the Target Index as of August 30, 2024 was 5.22%, representing an aggregate dividend yield of approximately 28.97% annually compounded over the approximately 5 year term of the Notes on the assumption that the dividends paid on the securities comprising the Target Index remain constant. The foregoing dividend yield information is for comparative purposes only and is not an indication of any future dividends that might be paid or payable on such securities. **Historical performance of the Index and the Target Index will not necessarily predict future performance of the Index and the Target Index or the Notes.**

License Agreement between the Index Sponsor and the Bank

The Index Sponsor and the Bank have entered into a non-exclusive license agreement providing for the license to the Bank, in exchange for a fee, of the right to use the Index and the Target Index, which are owned, calculated, administered and published by the Index Sponsor, in connection with the Notes.

The license agreement between the Index Sponsor and the Bank provides that the following language must be set forth in this pricing supplement:

The Notes are not sponsored, promoted, sold or supported in any other manner by the Index Sponsor nor does the Index Sponsor offer any express or implicit guarantee or assurance, either with regard to the results of using the Index, the Target Index and/or the trade marks of the Index and Target Index or the applicable "Index Price" (as defined in the license agreement) in respect of the Index and Target Index at any time or in any other respect. The Index and Target Index are calculated and published by the Index Sponsor. The Index Sponsor uses its best efforts to ensure that the Index and Target Index are calculated correctly. Irrespective of its obligations towards the Bank, the Index Sponsor has no obligation to point out errors in the Index and Target Index to third parties including but not limited to investors and/or financial intermediaries of the Notes. Neither publication of the Index and Target Index by the Index Sponsor nor the licensing of the Index and Target Index or the trade marks of the Index and Target Index for the purpose of use in connection with the Notes constitutes a recommendation by the Index Sponsor to invest capital in the Notes nor does it in any way represent an assurance or opinion of the Index Sponsor with regard to any investment in the Notes.
