Pricing Supplement No. 6070 to the Short Form Base Shelf Prospectus dated March 4, 2024 and the Prospectus Supplement thereto dated March 5, 2024.

No securities regulatory authority has expressed an opinion about these securities and it is an offence to claim otherwise.

This pricing supplement together with the short form base shelf prospectus dated March 4, 2024 and the prospectus supplement dated March 5, 2024 to which it relates, as amended or supplemented, and each document incorporated by reference into such prospectus, constitutes a public offering of these securities only in those jurisdictions where they may be lawfully offered for sale and therein only by persons permitted to sell such securities.

The securities to be issued hereunder have not been, and will not be, registered under the United States Securities Act of 1933, as amended and, subject to certain exceptions, may not be offered, sold or delivered, directly or indirectly, in the United States of America or for the account or benefit of U.S. persons.

Scotiabank®

The Bank of Nova Scotia

Senior Notes (Principal at Risk Notes)
Equity Linked Notes

BNS Callable Contingent US$19.14 Coupon Notes Linked to Broadcom Inc., Series 2F (USD)
Maximum US$30,000,000 (300,000 Notes)
Due January 16, 2029

The Bank of Nova Scotia (the "Bank") is offering up to US$30,000,000 BNS Callable Contingent US$19.14 Coupon Notes Linked to Broadcom Inc., Series 2F (USD) (the "Notes"). The Notes are principal at risk notes that offer a return linked to the price performance of the common shares (individually, the "Reference Share" and collectively, the "Reference Shares") of Broadcom Inc. (the "Reference Company"), an issuer listed on the Nasdaq Global Select Market (the "Exchange"). Whether there is a return on the Notes through Coupon Payments and whether the Principal Amount is returned at maturity is based on the price performance of the Reference Share. The Maturity Redemption Amount will never exceed the Principal Amount. **The return on the Notes will not reflect the total return that an investor would receive if such investor owned the Reference Share.** The Notes provide holders with monthly interest payments ("Coupon Payments") of US$1.595 per Note if the Closing Share Price is greater than or equal to the Barrier Price (which is 70.00% of the Initial Share Price) on the applicable Coupon Valuation Date (maximum aggregate Coupon Payments of US$57.42 per Note over the term of the Notes). The Notes will be automatically called (i.e., redeemed) by the Bank if the Closing Share Price on any Autocall Valuation Date is greater than or equal to the Autocall Price (which is 110.00% of the Initial Share Price). If the Notes are called, holders will receive both the Principal Amount and the Coupon Payment for the applicable Autocall Valuation Date. The Notes are callable on a quarterly basis and cannot be automatically called prior to July 15, 2026. See "Valuation Dates, Payment Dates and Call Dates" in this pricing supplement. If the Notes are not automatically called by the Bank, the Notes provide contingent principal protection at maturity if the Final Share Price on the Final Valuation Date is greater than or equal to the Barrier Price. If the Final Share Price on the Final Valuation Date is less than the Barrier Price, a holder of the Notes will be fully exposed to any negative price performance of the Reference Share, meaning that substantially all of such holder's investment may be lost (subject to a minimum principal repayment of US$1.00 per Note). Information concerning the Reference Company and its business and operations can be found on its website at www.broadcom.com and under its profile at www.sec.gov. See *Appendix C* and "Suitability for Investment" in this pricing supplement.

The Notes described in this pricing supplement will be delivered together with the Bank's short form base shelf prospectus dated March 4, 2024 establishing the Bank's senior medium term (principal at risk) note program (the "base shelf prospectus") and a prospectus supplement, which generally describes equity and unit linked notes that may be offered under such program, dated March 5, 2024 (the "product supplement").

The Notes will not constitute deposits insured under the *Canada Deposit Insurance Corporation Act* or under any other deposit insurance regime.

An investment in the Notes involves risks. The Notes are not designed to be alternatives to fixed income or money market instruments. The Notes are only appropriate investments for persons who understand the risks associated with structured products and derivatives. The Notes are considered to be "specified derivatives" under applicable Canadian securities laws. An investment in the Notes does not represent a direct or indirect investment in the Reference Share or the Reference Company and investors do not have an ownership or any other interest in respect of the Reference Share. None of the Bank, the Investment Dealers or any of their respective affiliates, or any other person guarantees that investors in the Notes will receive an amount equal to their original investment (subject to a minimum principal repayment of US$1.00 per Note), or guarantees that any return will be paid on the Notes, at or prior to maturity. The Maturity Redemption Amount will depend on the price performance of the Reference Share. An investor could lose substantially all of their investment in the Notes (subject to a minimum principal repayment of US$1.00 per Note). See "Risk Factors".

Price: US$100.00 per Note
Minimum Subscription: US$1,000 (10 Notes)

	Price to Public	Investment Dealer Fees[(2)]	Net Proceeds to the Bank
Per Note	US$100.00	US$0.00	US$100.00
Total[(1)]	US$30,000,000	US$0.00	US$30,000,000

(1) Reflects the maximum offering size for the Notes. **There is no minimum amount of funds that must be raised under this offering. This means that the Bank could complete this offering after raising only a small proportion of the offering amount set out above.**

(2) There is no selling concession fee payable to the Investment Dealers in respect of the Notes. A fee of up to US$0.15 per Note sold (or up to 0.15% of the Principal Amount) will be payable directly by the Bank to Desjardins Securities Inc. at closing for acting as the independent agent.

The expected estimated value of the Notes as of the date of this pricing supplement is US$96.23 per US$100.00 in Principal Amount, which is less than the price at which the Notes are being offered. The actual value of the Notes at any given time will reflect a variety of factors, cannot be predicted with accuracy and may be less than the estimated value. The estimated value was determined by the Bank on the pricing date of the Notes and is not an indication of actual profit to the Bank or any of its affiliates. See "Determination of Estimated Value" and "Risk Factors" in this pricing supplement and "Estimated Value of the Notes" in the base shelf prospectus.

Prospectus for Notes and Capitalized Terms

The Notes described in this pricing supplement will be issued under the Bank's senior (principal at risk) note program and will be direct senior unsecured and unsubordinated debt securities. The Notes are described in three separate documents: (1) the base shelf prospectus, which includes a certificate of the dealer at page PS4758 D-1 to PS4758 dated January 27, 2025, and a certificate of the dealer at page PS5145 E-1 to PS5145 dated May 29, 2025, (2) the product supplement, and (3) this pricing supplement which contains the specific terms (including pricing information) about the Notes being offered, all of which, collectively, constitute the "prospectus" in respect of such Notes. Each of these documents should be read and considered carefully before a purchaser makes an investment decision in respect of the Notes. See "About this Prospectus for Notes" in the base shelf prospectus. A copy of the prospectus for the Notes will be posted at www.scotianotes.com.

Any capitalized terms used in this pricing supplement and not defined herein have the meaning ascribed to them in the product supplement or the base shelf prospectus, as the case may be.

Documents Incorporated by Reference

This pricing supplement is deemed to be incorporated by reference into the base shelf prospectus solely for the purpose of the Notes issued hereunder. Other documents are also incorporated or deemed to be incorporated by reference into the base shelf prospectus and reference should be made to the base shelf prospectus for full particulars.

Any statement contained or contemplated in a document incorporated or deemed to be incorporated by reference in the base shelf prospectus or in this pricing supplement will be deemed to be modified or superseded for purposes of this pricing supplement to the extent that a statement contained herein or in any other subsequently filed document which also is or is deemed to be incorporated by reference in the base shelf prospectus or in this pricing supplement modifies or supersedes such statement. The modifying or superseding statement need not state that it has modified or superseded a prior statement or include any other information set forth in the document that it modifies or supersedes. The making of a modifying or superseding statement will not be deemed an admission for any purpose that the modified or superseded statement, when made, constituted a misrepresentation, an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made. Any statement so modified or superseded will not be deemed, except as so modified or superseded, to constitute a part of this pricing supplement.

Description of the Notes

The following disclosure supersedes in its entirety the disclosure under "Description of the Notes" set forth at page 8 in the base shelf prospectus, and is deemed to be incorporated by reference into the base shelf prospectus.

The Bank may, from time to time, offer and issue under this Prospectus medium term notes (principal at risk notes). The Notes will be issued from time to time during the 25-month period that this Prospectus remains valid.

The Notes will constitute direct senior unsecured and unsubordinated obligations of the Bank and will rank equally with all other present and future direct senior unsecured and unsubordinated indebtedness of the Bank, subject to certain priorities under applicable law, and will be payable rateably without any preference or priority. **The Notes will not constitute deposits that are insured under the Canada Deposit Insurance Corporation Act or any other deposit insurance regime.**

The Notes will be issued in one or more tranches of one or more series. The specific terms of any offering of Notes not described herein including, without limitation, the initial offering price, any discount or commission to be paid to any Investment Dealers, the aggregate principal amount, currency, issue price and maturity date of the Notes being offered, applicable fees and the proceeds to the Bank, will be set forth in the applicable product supplement and pricing supplement that will be delivered to purchasers together with this Prospectus in connection with the sale of such Notes.

Deferred Payment

The following disclosure supersedes in its entirety the disclosure under "Deferred Payment" set forth at page 16 in the base shelf prospectus, and is deemed to be incorporated by reference into the base shelf prospectus.

Under the *Criminal Code* (Canada), a lender is prohibited from entering into an agreement or arrangement to receive interest at an annual percentage rate of interest, calculated in accordance with generally accepted actuarial practices and principles, exceeding 35% of the credit advanced under the agreement or arrangement. This prohibition may not apply, depending on the amount of the credit advanced and, in certain circumstances, the annual percentage rate of interest received by the lender/investor on such credit advanced. The Bank will not, to the extent permitted by law, voluntarily claim the benefits of any laws concerning usurious rates of interest. If not permitted by law to do so, when any payment is to be made by the Bank to a holder of the Notes, payment of a portion of such amount may be deferred to ensure compliance with such laws, if applicable.

Marketing Materials

The marketing materials in respect of the Notes dated the date hereof and filed with the securities regulatory authorities in each province and territory of Canada are specifically incorporated by reference into this pricing supplement. Any additional marketing materials (as defined in National

Instrument 41-101 - *General Prospectus Requirements*) filed with the securities commission or similar authority in each of the provinces and territories of Canada in connection with this offering on or after the date hereof but prior to the termination of the distribution of the Notes under this pricing supplement (including any amendments to, or an amended version of, the marketing materials) are deemed to be incorporated by reference herein. Any marketing materials are not part of this pricing supplement to the extent that the contents of the marketing materials have been modified or superseded by a statement contained in an amendment to this pricing supplement.

Forward-looking Statements

From time to time, the Bank's public communications include oral or written forward-looking statements. Statements of this type are included in this document, and may be included in other filings with Canadian securities regulators or the U.S. Securities and Exchange Commission (the "SEC"), or in other communications. In addition, representatives of the Bank may include forward-looking statements orally to analysts, investors, the media and others. All such statements are made pursuant to the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995 and any applicable Canadian securities legislation. Forward-looking statements may include, but are not limited to, statements made in this document, the Management's Discussion and Analysis in the Bank's 2025 Annual Report under the headings "Outlook" and in other statements regarding the Bank's objectives, strategies to achieve those objectives, the regulatory environment in which the Bank operates, anticipated financial results, and the outlook for the Bank's businesses and for the Canadian, U.S. and global economies. Such statements are typically identified by words or phrases such as "believe," "expect," "aim," "achieve," "foresee," "forecast," "anticipate," "intend," "estimate," "outlook," "seek," "schedule," "plan," "goal," "strive," "target," "project," "commit," "objective," and similar expressions of future or conditional verbs, such as "will," "may," "should," "would," "might," "can" and "could" and positive and negative variations thereof.

By their very nature, forward-looking statements require the Bank to make assumptions and are subject to inherent risks and uncertainties, which give rise to the possibility that the Bank's predictions, forecasts, projections, expectations or conclusions will not prove to be accurate, that the Bank's assumptions may not be correct and that the Bank's financial performance objectives, vision and strategic goals will not be achieved.

The Bank cautions readers not to place undue reliance on these statements as a number of risk factors, many of which are beyond the Bank's control and effects of which can be difficult to predict, could cause the Bank's actual results to differ materially from the expectations, targets, estimates or intentions expressed in such forward-looking statements.

The future outcomes that relate to forward-looking statements may be influenced by many factors, including but not limited to: general economic and market conditions in the countries in which the Bank operates and globally; changes in currency and interest rates; increased funding costs and market volatility due to market illiquidity and competition for funding; the failure of third parties to comply with their obligations to the Bank and its affiliates, including relating to the care and control of information, and other risks arising from the Bank's use of third parties; changes in monetary, fiscal, or economic policy and tax legislation and interpretation; changes in laws and regulations or in supervisory expectations or requirements, including capital, interest rate and liquidity requirements and guidance, and the effect of such changes on funding costs; geopolitical risk (including policies and other changes related to, or affecting, economic or trade matters, including tariffs, countermeasures, tariff mitigation policies and tax-related risks); changes to the Bank's credit ratings; the possible effects on the Bank's business and the global economy of war, conflicts or terrorist actions and unforeseen consequences arising from such actions; technological changes, including open banking and the use of data and artificial intelligence in the Bank's business, and technology resiliency; operational and infrastructure risks; reputational risks; the accuracy and completeness of information the Bank receives on customers and counterparties; the timely development and introduction of new products and services, and the extent to which products or services previously sold by the Bank require the Bank to incur liabilities or absorb losses not contemplated at their origination; the Bank's ability to execute its strategic plans, including the successful completion of acquisitions and dispositions, including obtaining regulatory approvals; critical accounting estimates and the effect of changes to accounting standards, rules and interpretations on these estimates; global capital markets activity; the Bank's ability to attract, develop and retain key executives; the evolution of various types of fraud or other criminal behaviour to which the Bank is exposed; anti-money laundering; disruptions or attacks (including cyberattacks) on the Bank's information technology, internet connectivity, network accessibility, or other voice or data communications systems or services, which may result in data breaches, unauthorized access to sensitive information, denial of service and potential incidents of identity theft; increased competition in the geographic and business areas in which the Bank operates, including through internet and mobile banking and non-traditional competitors; exposure related to significant litigation and regulatory matters; environmental, social and governance risks, including climate-related risk, the Bank's ability to implement various sustainability-related initiatives (both internally and with the Bank's clients and other stakeholders) under expected time frames, and the Bank's ability to scale the Bank's sustainable-finance products and services; the occurrence of natural and unnatural catastrophic events and claims resulting from such events, including disruptions to public infrastructure, such as transportation, communications, power or water supply; inflationary pressures; global supply-chain disruptions; Canadian housing and household indebtedness; the emergence or continuation of widespread health emergencies or pandemics, including their impact on the local, national or global economies, financial market conditions and the Bank's business, results of operations, financial condition and prospects; and the Bank's anticipation of and success in managing the risks implied by the foregoing. A substantial amount of the Bank's business involves making loans or otherwise committing resources to specific companies, industries or countries. Unforeseen events affecting such borrowers, industries or countries could have a material adverse effect on the Bank's financial results, businesses, financial condition or liquidity. These and other factors may cause the Bank's actual performance to differ materially from that contemplated by forward-looking statements. The Bank cautions that the preceding list is not exhaustive of all possible risk factors and other factors could also adversely affect the Bank's results, for more information, please see the "Risk Management" section of the Bank's 2025 Annual Report, as may be updated by quarterly reports.

Material economic assumptions underlying the forward-looking statements are set out in the 2025 Annual Report under the headings "Outlook", as updated by quarterly reports. The "Outlook" and "2026 Priorities" sections are based on the Bank's views and the actual outcome is uncertain. Readers should consider the above-noted factors when reviewing these sections. When relying on forward-looking statements to make decisions with respect to the Bank and its securities, investors and others should carefully consider the preceding factors, other uncertainties and potential events.

Any forward-looking statements contained in the 2025 Annual Report represent the views of management only as of the date thereof and are presented for the purpose of assisting the Bank's shareholders and analysts in understanding the Bank's financial position, objectives and priorities, and anticipated financial performance as at and for the periods ended on the dates presented, and may not be appropriate for other purposes.

Except as required by law, the Bank does not undertake to update any forward-looking statements, whether written or oral, that may be made from time to time by or on its behalf.

Additional information relating to the Bank, including the Bank's Annual Information Form, can be located on the SEDAR+ website at www.sedarplus.ca and on the EDGAR section of the SEC's website at www.sec.gov.

The Bank of Nova Scotia

Senior Notes (Principal at Risk Notes)
Equity Linked Notes

BNS Callable Contingent US$19.14 Coupon Notes Linked to Broadcom Inc., Series 2F (USD)
Maximum US$30,000,000 (300,000 Notes)
Due January 16, 2029

Issuer

The Bank of Nova Scotia (the "Bank").

Investment Dealers

Scotia Capital Inc. and Desjardins Securities Inc.

Desjardins Securities Inc., a dealer to which the Bank is neither related nor connected, participated in the due diligence activities performed by the Investment Dealers in respect of the offering, but did not participate in the structuring and pricing of the offering or the calculation of, or review the calculation of, the initial estimated value of the Notes. See "Plan of Distribution" in the base shelf prospectus.

Issue Size

Maximum US$30,000,000 (300,000 Notes). The Bank reserves the right to change the maximum Issue Size in its sole and absolute discretion.

Principal Amount

US$100.00 per Note (the "Principal Amount").

Issue Date

The Notes will be issued on or about January 15, 2026, or such other date as may be agreed between the Bank and the Investment Dealers.

CUSIP

06419ZL28.

Fundserv Code

SSP7061.

Notes may be purchased through dealers and other firms that facilitate purchase and related settlement through a clearing and settlement service operated by Fundserv. See "Listing and Secondary Market".

Issue Price

100.00% of the Principal Amount.

Maturity Date

January 16, 2029 (approximately a 3 year term) (the "Maturity Date"), subject to the Notes being automatically called (i.e., redeemed) by the Bank. See "Description of Equity and Unit Linked Notes – Maturity Date" and "Description of Equity and Unit Linked Notes – Amounts Payable" in the product supplement.

Autocall

The Notes will be automatically called (i.e., redeemed) by the Bank if the Closing Share Price on any Autocall Valuation Date is greater than or equal to the Autocall Price. The Notes are callable on a quarterly basis and cannot be automatically called prior to July 15, 2026. See "Valuation Dates, Payment Dates and Call Dates". If the Closing Share Price on any Autocall Valuation Date is not greater than or equal to the Autocall Price, the Notes will not be automatically called by the Bank.

Autocall Price

110.00% of the Initial Share Price.

Minimum Investment

US$1,000 (10 Notes).

Status/Rank

The Notes will be direct senior unsecured and unsubordinated obligations of the Bank and will rank equally with all other present and future direct senior unsecured and unsubordinated indebtedness of the Bank, subject to certain priorities under applicable law.

Credit Rating

As of the date of this pricing supplement, the Bank's direct senior unsecured and unsubordinated obligations with a term to maturity of one year or more were rated AA by DBRS Limited, A+ by Standard & Poor's, AA by Fitch Ratings and Aa2 by Moody's Investors Service, Inc. **However, the Notes have not been and will not be rated by any credit rating organization. There can be no assurance that if the Notes were specifically rated by these rating agencies that they would have the same rating as the Bank's unsecured and unsubordinated obligations with a term to maturity of one year or more. A rating is not a recommendation to buy, sell or hold investments, and may be subject to revision or withdrawal at any time by the relevant rating agency.**

Reference Share and Reference Company

Whether there is a return on the Notes through the Coupon Payments and whether the Principal Amount is returned at maturity is based on the price performance of the common shares (individually, the "Reference Share" and collectively, the "Reference Shares") of Broadcom Inc. (the "Reference Company"). The Reference Company designs, develops, and supplies semiconductor and semiconductor-based solutions and infrastructure software solutions. The Reference Company's semiconductor and semiconductor-based solutions are in five major end markets: Networking Connectivity, Wireless Device Connectivity, Servers and Storage Systems, Broadband and Industrial. The Reference Company also offers five major infrastructure software portfolios: Private Cloud, Mainframe Software, Cybersecurity, Enterprise Software and FC SAN Management. The Reference Company is listed on the Nasdaq Global Select Market (the "Exchange") under the symbol AVGO. As at December 17, 2025, its market capitalization was approximately US$1,539.59 billion. The Reference Share is subject to adjustments that may be made upon the occurrence of any special circumstances including a Merger Event, Tender Offer, Substitution Event or an Extraordinary Event. See "Special Circumstances" in this pricing supplement.

A brief description of the Reference Company and the historical trading prices of the Reference Share are set out under *Appendix C* to this pricing supplement. Investors can obtain additional information concerning the Reference Company and its business and operations on its website at www.broadcom.com and under its profile at www.sec.gov or through their advisors.

The Notes do not represent a direct or indirect investment in the Reference Share or the Reference Company and holders will have no right or entitlement to the Reference Share, including voting rights or the right to receive any dividends, distributions or other income or amounts accruing or paid thereon. The Price Return reflects the price appreciation or depreciation of the Reference Share. The annual dividend yield on the Reference Share as of December 17, 2025 was 0.72%, representing an aggregate dividend yield of approximately 2.18% annually compounded over the approximately 3 year term of the Notes on the assumption that the dividends paid on the Reference Share remain constant. There is no requirement for the Bank to hold any interest in the Reference Share or the Reference Company.

The decision to offer the Notes pursuant to this pricing supplement has been taken independently of any decision by the Bank to purchase the Reference Shares of the Reference Company in the primary or secondary market. Except with respect to any hedging activities in which the Bank engages with respect to its obligations under the Notes, any decision by the Bank to purchase the Reference Shares of the Reference Company in the primary or the secondary market will have been taken independently of the Bank's decision to offer the Notes pursuant to this pricing supplement. The Bank's employees involved in the structuring and the decision to offer the Notes are not privy to any non-public information regarding either primary or secondary market purchases of the Reference Shares of the Reference Company made by the Bank in connection with any primary distribution made by the Reference Company.

Initial Valuation Date

January 15, 2026 (the "Initial Valuation Date"), provided that if such day is not an Exchange Business Day then the Initial Valuation Date will be the first succeeding day that is an Exchange Business Day, subject to the occurrence of any special circumstances (see "Special Circumstances" in this pricing supplement).

Final Valuation Date

January 9, 2029 (the "Final Valuation Date"), provided that if such day is not an Exchange Business Day then the Final Valuation Date will be the immediately preceding Exchange Business Day, subject to the Notes being automatically called and the occurrence of any special circumstances (see "Special Circumstances" in this pricing supplement).

Valuation Dates, Payment Dates and Call Dates

The specific Coupon Valuation Dates, Autocall Valuation Dates, Payment Dates and Call Dates for the Notes will be as indicated in the table below, subject to the occurrence of any special circumstances (see "Special Circumstances" in this pricing supplement) and the Notes being automatically called by the Bank. The Notes are callable on a quarterly basis and cannot be automatically called by the Bank prior to July 15, 2026.

Period	Coupon Valuation Date/ Autocall Valuation Date	Payment Date/ Call Date
1	February 10, 2026	February 17, 2026 (not callable)
2	March 10, 2026	March 16, 2026 (not callable)

Period	Coupon Valuation Date/ Autocall Valuation Date	Payment Date/ Call Date
3	April 9, 2026	April 15, 2026 (not callable)
4	May 11, 2026	May 15, 2026 (not callable)
5	June 9, 2026	June 15, 2026 (not callable)
6	July 9, 2026	July 15, 2026
7	August 11, 2026	August 17, 2026 (not callable)
8	September 9, 2026	September 15, 2026 (not callable)
9	October 8, 2026	October 15, 2026
10	November 9, 2026	November 16, 2026 (not callable)
11	December 9, 2026	December 15, 2026 (not callable)
12	January 11, 2027	January 15, 2027
13	February 9, 2027	February 16, 2027 (not callable)
14	March 9, 2027	March 15, 2027 (not callable)
15	April 9, 2027	April 15, 2027
16	May 11, 2027	May 17, 2027 (not callable)
17	June 9, 2027	June 15, 2027 (not callable)
18	July 9, 2027	July 15, 2027
19	August 10, 2027	August 16, 2027 (not callable)
20	September 9, 2027	September 15, 2027 (not callable)
21	October 8, 2027	October 15, 2027
22	November 8, 2027	November 15, 2027 (not callable)
23	December 9, 2027	December 15, 2027 (not callable)
24	January 11, 2028	January 18, 2028
25	February 9, 2028	February 15, 2028 (not callable)
26	March 9, 2028	March 15, 2028 (not callable)
27	April 10, 2028	April 17, 2028
28	May 9, 2028	May 15, 2028 (not callable)
29	June 9, 2028	June 15, 2028 (not callable)
30	July 11, 2028	July 17, 2028
31	August 9, 2028	August 15, 2028 (not callable)
32	September 11, 2028	September 15, 2028 (not callable)
33	October 10, 2028	October 16, 2028
34	November 8, 2028	November 15, 2028 (not callable)
35	December 11, 2028	December 15, 2028 (not callable)
36	January 9, 2029 (Final Valuation Date)	January 16, 2029 (Maturity Date)

The Final Valuation Date is not an Autocall Valuation Date. Unless the Notes are automatically called by the Bank prior to maturity, the Maturity Date is the last Payment Date. If the Notes are automatically called (i.e., redeemed) by the Bank on any Call Date prior to the Maturity Date, the Notes will be cancelled, all amounts due shall be paid to holders on the applicable Payment Date and holders will not be entitled to receive any subsequent payments in respect of the Notes.

If a Coupon Valuation Date or an Autocall Valuation Date is not an Exchange Business Day then the Coupon Valuation Date or Autocall Valuation Date, as the case may be, will be the immediately preceding Exchange Business Day, subject to the occurrence of any special circumstances (see "Special Circumstances" in this pricing supplement). If a Payment Date, a Call Date or the Maturity Date is not a Business Day then the related payment the Bank is obligated to make on such day, if any, will be paid to the holder on the immediately following Business Day, subject to the occurrence of any special circumstances (see "Special Circumstances" in this pricing supplement), and no interest shall be paid in respect of such delay.

Coupon Payments

On each Payment Date, holders of record may be entitled to receive a monthly interest payment (a "Coupon Payment"), determined as follows:

(i) If the Closing Share Price on the relevant Coupon Valuation Date is greater than or equal to the Barrier Price, the Coupon Payment will be US$1.595 per Note; and

(ii) If the Closing Share Price on the relevant Coupon Valuation Date is less than the Barrier Price, no Coupon Payment will be made.

The aggregate Coupon Payments over the term of the Notes will not exceed US$57.42 per Note. If the Notes are automatically called by the Bank, holders will receive both the Principal Amount and the Coupon Payment for the applicable Autocall Valuation Date.

Maturity Redemption Amount

Holders of record will be entitled to an amount payable per Note if the Notes are automatically called by the Bank, or at maturity, as the case may be (in each case, the "Maturity Redemption Amount") as calculated by the Calculation Agent in accordance with the applicable formula below:

- If the Closing Share Price on an Autocall Valuation Date is greater than or equal to the Autocall Price, the Maturity Redemption Amount will equal:
    - Principal Amount
- If the Final Share Price on the Final Valuation Date is greater than or equal to the Barrier Price, the Maturity Redemption Amount will equal:
    - Principal Amount
- If the Final Share Price on the Final Valuation Date is less than the Barrier Price, the Maturity Redemption Amount will equal:
    - Principal Amount + (Principal Amount × Price Return)

The Maturity Redemption Amount will be substantially less than the Principal Amount invested by an investor if the Final Share Price on the Final Valuation Date is less than the Barrier Price. The Maturity Redemption Amount will be subject to a minimum principal repayment of US$1.00 per Note. **The return on the Notes will not reflect the total return that an investor would receive if such investor owned the Reference Share.**

Certain dollar amounts will be rounded to the nearest whole cent. See *Appendix A* to this pricing supplement for hypothetical examples showing how the Maturity Redemption Amount and Coupon Payments would be determined and calculated based on certain hypothetical values and assumptions.

Barrier Price

70.00% of the Initial Share Price.

Price Return

The Price Return for the Reference Share on a given day (which can be zero, positive or negative) will be an amount expressed as a percentage calculated by the Calculation Agent in accordance with the following formula:

(Closing Share Price – Initial Share Price) ÷ Initial Share Price

Closing Share Price

The official closing price or value of the Reference Share on a given day as calculated and announced by the Exchange on an Exchange Business Day.

Initial Share Price

The Closing Share Price on the Initial Valuation Date.

Final Share Price

The Closing Share Price on an Autocall Valuation Date or the Final Valuation Date, as the case may be.

Currency

The Notes are denominated in U.S. dollars and any amounts owing under the Notes will be payable in U.S. dollars. No currency conversion will be applied when calculating amounts owing under the Notes. Unless otherwise indicated, all dollar amounts appearing in this pricing supplement are stated in Canadian dollars.

Fees and Expenses

There is no selling concession fee payable to the Investment Dealers in respect of the Notes. A fee of up to US$0.15 per Note sold (or up to 0.15% of the Principal Amount) will be payable directly by the Bank to Desjardins Securities Inc. at closing for acting as the independent agent. The payment of these fees will not reduce the amount on which the Maturity Redemption Amount payable on the Notes is calculated.

Determination of Estimated Value

The Notes are debt securities, the return on which is linked to the price performance of the Reference Share of the Reference Company. In order to satisfy its payment obligations under the Notes, the Bank may choose to enter into certain hedging arrangements (which may include call options, put options or other derivatives) on or before the Initial Valuation Date with Scotia Capital Inc. or one of the Bank's other subsidiaries, or with a third party, but is under no obligation to do so. The terms of any such hedging arrangements would, if entered into, take into account a number of factors, including the creditworthiness of the Bank, interest rate movements, the volatility of the Reference Share, and the tenor of the Notes.

The Issue Price of the Notes also reflects the Bank's expected profit (which may or may not be realized) based on an estimate of costs the Bank may incur in creating, issuing, maintaining and potentially hedging its obligations under the Notes. These factors result in the estimated value for the Notes on the date of this pricing supplement being less than the Issue Price of the Notes. See "Risk Factors" in this pricing supplement and "Estimated Value of the Notes" in the base shelf prospectus.

The Bank has adopted written policies and procedures for determining the estimated initial value of the Notes which include: (i) the methodologies used for valuing each type of component embedded in the Notes, (ii) the methods by which the Bank will review and test valuation to assess the quality of the prices obtained as well as the general functioning of the valuation process, and (iii) conflicts of interest.

Listing and Secondary Market

The Notes will not be listed on any exchange or marketplace. Scotia Capital Inc. will use reasonable efforts under normal market conditions to provide a daily secondary market for the sale of the Notes but reserves the right to elect not to do so at any time in the future, in its sole and absolute discretion, without prior notice to holders. Under no circumstances will Scotia Capital Inc. provide a secondary market for the Notes on or following an Autocall Valuation Date if the Notes are called, or the Final Valuation Date, as the case may be, or at or prior to maturity if the Notes will be redeemed by the Bank as a result of the occurrence of an Extraordinary Event. See "Risk Factors Relating to the Secondary Market" in the product supplement and "Secondary Market for Notes" in the base shelf prospectus.

The sale of a Note in a secondary market (if any such secondary market exists at such time) prior to the Maturity Date will be effected at a price equal to (i) the bid price on the sale date, less (ii) any transaction charges that may or may not be levied by the relevant selling agent. The Notes may in certain circumstances be transferable through CDS and not the Fundserv network. There is no guarantee that the bid price at any time will be the highest possible price available in any secondary market for the Notes, and the actual price received by a holder and the selling terms for such secondary market sales may be varied by the relevant selling agent.

Special Circumstances

See the "Special Circumstances" section in the product supplement for a description of certain special circumstances, including a Merger Event, a Tender Offer, a Substitution Event, a Market Disruption Event and an Extraordinary Event, which may result in an adjustment to the terms of the Notes, the Reference Share or the calculation or timing of payments due on the Notes, or the early redemption of the Notes.

Calculation Agent

Scotia Capital Inc.

Eligibility for Investment

Eligible for RRSPs, RRIFs, RESPs, RDSPs, DPSPs, TFSAs and FHSAs. See "Eligibility for Investment" in *Appendix B* to this pricing supplement.

Tax Information

This income tax summary is subject to the limitations and qualifications set out under the heading "Certain Canadian Federal Income Tax Considerations" in *Appendix B* to this pricing supplement.

A Resident Initial Investor should not be required to include amounts in income in respect of a Note prior to the determination of: (i) in respect of a particular Coupon Payment, the amount of such coupon, or (ii) an Accelerated Payment upon the occurrence of an Extraordinary Event. Absent the occurrence of an Extraordinary Event, a Resident Initial Investor will be required to include in their income for a taxation year any Coupon Payment that becomes determinable in the particular taxation year to the extent that such amount was not otherwise included in computing the Resident Initial Investor's income for a preceding taxation year. If the Maturity Redemption Amount is less than the Principal Amount of the Notes, the Resident Initial Investor will generally realize a capital loss on the redemption of the Notes.

The Notes are denominated in U.S. dollars. For the purposes of the *Income Tax Act* (Canada) (the "Act"), all U.S. dollar amounts relating to the acquisition, holding or disposition of a Note must generally be converted into Canadian dollars using the appropriate exchange rate determined in accordance with the detailed rules of the Act in that regard (the "Applicable Exchange Rate"). As a result, a Resident Initial Investor may realize income, capital gains or capital losses by virtue of fluctuations in the value of the U.S. dollar relative to the Canadian dollar.

In general, where an investor assigns or transfers a debt obligation (other than as a consequence of a repayment of the debt obligation), any interest that has accrued on the debt obligation up to the date of disposition will be included in the investor's income as interest for the taxation year in which the transfer occurs (to the extent that it has not otherwise been included in the investor's income for that year or a previous year) and excluded from the investor's proceeds of disposition of the debt obligation. Where a Resident Initial Investor assigns or transfers a Note (other than as a consequence of a repayment or redemption of the Note), the Resident Initial Investor will be required to include in their income as accrued interest, an amount equal to the amount, if any, by which the price for which the Note was assigned or transferred (converted into Canadian dollars using the Applicable Exchange Rate on the date of assignment or transfer) exceeds the Principal Amount of the Note (converted into Canadian dollars using the Applicable Exchange Rate on the date of assignment or transfer).

A Resident Initial Investor who disposes of, or is deemed to dispose of, a Note will generally realize a capital gain (or capital loss) to the extent that the proceeds of disposition, net of any amount included in income as interest, exceed (or are less than) the aggregate of the Resident Initial Investor's adjusted cost base of the Note and any reasonable costs of disposition. Resident Initial Investors who dispose of Notes other than as a consequence of the repayment or redemption of the Notes by the Bank should consult their tax advisors with respect to their particular circumstances.

U.S. Tax Considerations

Initial holders of the Notes should not be subject to withholding tax under Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended, solely as a result of investing in the Notes. Section 871(m) imposes a 30% withholding tax (which may be reduced by an applicable income tax treaty) on certain "dividend equivalents" paid or deemed paid to a non-U.S. holder with respect to certain "specified equity-linked instruments" that reference one or more dividend-paying U.S. equity securities or indices containing U.S. equity securities. It is possible, however, that withholding tax under Section 871(m) could apply to the Notes if a non-U.S. holder enters, or has entered, into certain other transactions in respect of the Reference Share. A non-U.S. holder that enters, or has entered, into any such transactions should consult their tax advisor regarding the application of Section 871(m) to their Notes in the context of their other transactions.

Performance Disclosure

Ongoing information about the performance of the Notes will be available on the Bank's structured products website (www.scotianotes.com).

Suitability for Investment

Investors should independently determine, with their own advisors, whether an investment in the Notes is suitable for them having regard to their own investment objectives and expectations and the risk factors described under "Risk Factors" in this pricing supplement, the base shelf prospectus and the product supplement. The Notes may be suitable for investors:

- who have an investment strategy consistent with the features of the Notes, including that the Maturity Redemption Amount will never exceed the Principal Amount (i.e., the investor will not participate in any price appreciation of the Reference Share);
- seeking the opportunity for what may be an enhanced return over other traditional equity or fixed rate investments and who are prepared to assume the risks associated with an investment linked to equity markets, in particular, the Reference Share;
- who are comfortable that the return on the Notes is linked to the common shares of a single issuer and to the fluctuations and changes in the price of the Reference Share only, which price may be more volatile than the equity market generally;
- who are comfortable that the return on the Notes is calculated using the price performance of the Reference Share only. As such, an investment in the Notes is not the same as making a direct or indirect investment in the Reference Share or Reference Company, including the fact that an investor will not have the right to receive any dividends, distributions or other income or amounts accruing or paid on the Reference Share;
- who are comfortable that the return on the Notes is linked to the price performance of the Reference Share of the Reference Company measured (i) on the Initial Valuation Date and on the Final Valuation Date or an Autocall Valuation Date only with respect to the Maturity Redemption Amount and (ii) on the Initial Valuation Date and each Coupon Valuation Date only with respect to Coupon Payments, and are willing to forego all dividends, distributions and other income and amounts accruing or paid in respect of the Reference Share;
- with an investment horizon equivalent to the approximately 3 year term of the Notes who are prepared to hold the Notes to maturity, but who are willing to assume the risk that the Notes will be automatically called (i.e., redeemed) by the Bank prior to the Maturity Date if the Closing Share Price is greater than or equal to the Autocall Price on an Autocall Valuation Date;
- willing to assume the risk of losing substantially all of their investment (subject to a minimum principal repayment of US$1.00 per Note) if the Final Share Price on the Final Valuation Date is less than the Barrier Price and are willing to make an investment that may have the same downside risk as an investment in the Reference Share;
- who are seeking a U.S. dollar denominated investment and are prepared to assume the risks (including losses) associated with investments exposed to fluctuations in currency exchange rates (see "Tax Information" for a description of the conversion of U.S. dollar amounts relating to the acquisition, holding or disposition of a Note into Canadian dollars);
- who have carefully considered the risks associated with an investment in the Notes; and
- willing to assume the credit risk of the Bank.

Risk Factors

Risk factors relating to the Notes include but are not limited to the following and those described in the product supplement and the base shelf prospectus under "Risk Factors":

- the Notes are subject to a quarterly automatic call feature and will be redeemed by the Bank prior to the Maturity Date if the Closing Share Price on an Autocall Valuation Date is greater than or equal to the Autocall Price. If the Notes are automatically called, investors will not be entitled to receive any subsequent payments in respect of the Notes;

- any Coupon Payments are contingent on the Closing Share Price on the Coupon Valuation Dates. If the Closing Share Price is less than the Barrier Price on any Coupon Valuation Date then no such payment will be made on that Payment Date;

- the Notes offer contingent principal protection based on the Final Share Price on the Final Valuation Date only. If the Final Share Price on the Final Valuation Date is less than the Barrier Price, an investor will be fully exposed to any negative price performance of the Reference Share, meaning that substantially all of such investor's investment may be lost (subject to a minimum principal repayment of US$1.00 per Note);

- the Maturity Redemption Amount and the Coupon Payments that may be payable on the Notes are linked to the price performance of the Reference Share of the Reference Company. Investors should realize that there is a possibility that the Maturity Redemption Amount may be substantially less than the Principal Amount invested by an investor and that no Coupon Payments may be payable on the Notes. There is no floor on the Price Return of the Reference Share if the price performance of the Reference Share is negative. Sufficiently weak performance of the Reference Share may result in the possibility that substantially all of an investor's investment may be lost (subject to a minimum principal repayment of US$1.00 per Note) and no Coupon Payments may be payable. See "Maturity Redemption Amount";

- the total return on the Notes will only be positive and the sum returned to investors will only be greater than the Principal Amount if (i) the Closing Share Price is greater than or equal to the Autocall Price on any Autocall Valuation Date, or greater than or equal to the Barrier Price on the Final Valuation Date, and (ii) the Closing Share Price is greater than or equal to the Barrier Price on at least one Coupon Valuation Date, since the Maturity Redemption Amount will never exceed the Principal Amount, or, notwithstanding the foregoing, if (a) the Final Share Price on the Final Valuation Date is less than the Barrier Price and (b) the aggregate amount of Coupon Payments that may be paid to holders over the term of the Notes is greater than the difference between the Principal Amount and the Maturity Redemption Amount;

- the return on the Notes could be adversely affected by a variety of factors that influence the equities market generally and could impact the value of the Reference Share and the Closing Share Price, and which are beyond the control of the Bank and the Investment Dealers, including political, geopolitical, economic, financial, social and other factors, as well as, the level of inflation, changes in interest rates and currency exchange rates, changes in trade or investment policies, treaties, tariffs, import duties and quotas, economic downturns, volatility in domestic and global financial markets, epidemics, pandemics or other public health emergencies, international or regional conflicts or wars, and various other circumstances that could influence the value of the securities in a specific market segment, industry or sector, or of the Reference Company including, corporate developments and earnings, and regulatory changes;

- the return on the Notes may be affected by specific risk factors associated with a direct investment in the Reference Share to the extent such risk factors could adversely affect the performance of the Reference Share. An investor should consult documents made publicly available by the Reference Company at www.sec.gov for a description of the risks applicable to the Reference Share and the Reference Company;

- since the Notes are linked only to the Reference Share of the Reference Company which is concentrated in a particular sector or sectors and/or industry to a greater or lesser degree, the Notes offer no diversification and full concentration risk, and the price of the Reference Share may experience higher volatility as compared to an investment linked to a more broadly diversified index or basket of securities. Adverse developments in the particular sector or sectors and/or industry in which the Reference Company is concentrated may cause the Reference Share to underperform relative to indices or baskets of securities that invest more broadly across other industries;

- the Notes have not been rated and will not be insured by the Canada Deposit Insurance Corporation or any other entity and therefore the payments to investors will be dependent upon the financial health and creditworthiness of the Bank;

- none of the Bank, the Investment Dealers or any of their respective affiliates or associates have performed and will not perform any due diligence investigation or review of the Reference Company or the Reference Share. Information in this pricing supplement relating to the Reference Company and the Reference Share is derived from publicly available sources. None of the Bank, the Investment Dealers or any of their respective affiliates or associates have independently verified, nor do they make any representation regarding, the accuracy or completeness of the public information relating to the Reference Company or the Reference Share. Prospective investors should undertake their own independent investigation of the Reference Company and the Reference Share in order to make an informed decision as to the merits of an investment in the Notes;

- an investment in the Notes should be made with an understanding that the Maturity Redemption Amount and any Coupon Payments will be denominated and payable in U.S. dollars. To the extent other assets or income of a holder of Notes are denominated in another currency, such as the Canadian dollar, an investment in the Notes will entail foreign exchange-related risks due to, among other factors, possible significant changes in the value of such currency relative to the U.S. dollar because of economic, political and other factors. Appreciation of the Canadian dollar against the U.S. dollar could result in a loss to a holder of Notes on a Canadian dollar basis. In addition, for the purposes of the Act, all U.S. dollar amounts must generally be converted into and reported in Canadian dollars by a holder based on the rate of exchange prevailing at the relevant time. See "Certain Canadian Federal Income Tax Considerations" in *Appendix B* to this pricing supplement; and

- the estimated initial value of the Notes indicated on the cover page of this pricing supplement was determined on the pricing date of the Notes using the Bank's internal pricing models which take into account a number of variables and assumptions about future events that may prove to be incorrect, including expectations as to dividends, distributions, interest rates and volatility, the Bank's internal funding rates (which may differ from the market rates for the Bank's conventional debt securities), and the expected term of the Notes. As a result, the actual value an investor would receive if they sold the Notes in any secondary market (if any exists) at any time, should be expected to differ materially from the estimated value of the Notes determined on the pricing date of the Notes. The Notes are not designed to be short-term trading instruments. Accordingly, an investor should be able and willing to hold the Notes to the Maturity Date. See "Determination of Estimated Value" in this pricing supplement and "Estimated Value of the Notes" in the base shelf prospectus.

Investors should carefully consider with their advisors all of the information set out in the prospectus before making any potential investment in the Notes. In particular, investors should evaluate the key risks highlighted above as well as the risks described under "Risk Factors" in the base shelf prospectus and under "Risk Factors" in the product supplement.

Appendix A

Hypothetical Examples

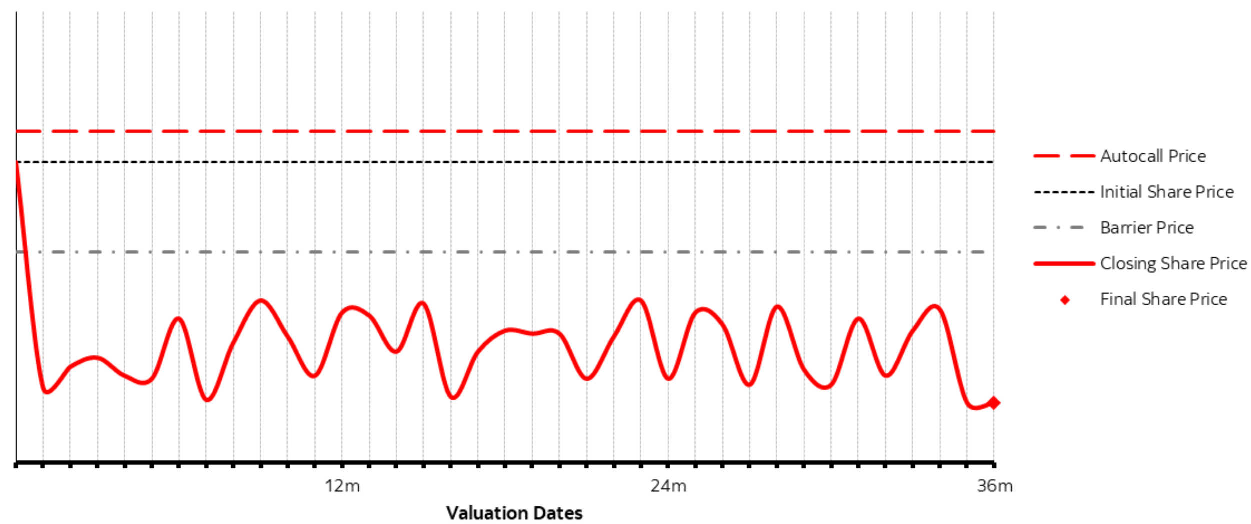
The following hypothetical examples show how the Coupon Payments and Maturity Redemption Amount would be calculated and determined based on certain hypothetical values and assumptions that are set out below. **These examples are for illustrative purposes only and should not be construed as an estimate or forecast of the performance of the Reference Share of the Reference Company or the return that an investor might realize on the Notes.** The return on the Notes will be calculated based on the price performance of the Reference Share. Certain dollar amounts are rounded to the nearest whole cent and "$" refers to the relevant currency for the specific hypothetical dollar amounts and hypothetical prices that the context requires.

Hypothetical values for calculations:

Initial Share Price*:	US$100.00
Barrier Price:	70.00% of the Initial Share Price = 70.00% × US$100.00 = US$70.00
Autocall Price:	110.00% of the Initial Share Price = 110.00% × US$100.00 = US$110.00
Coupon Payment:	US$1.595

**The Initial Share Price of US$100.00 is a hypothetical Initial Share Price that has been chosen for illustrative purposes only and does not represent either the actual Initial Share Price or an estimate or forecast thereof. The actual Initial Share Price will be equal to the Closing Share Price on the Initial Valuation Date.*

Example #1 – The Notes are not automatically called as the Closing Share Price on each Autocall Valuation Date is less than the Autocall Price. The Final Share Price on the Final Valuation Date is less than the Barrier Price.



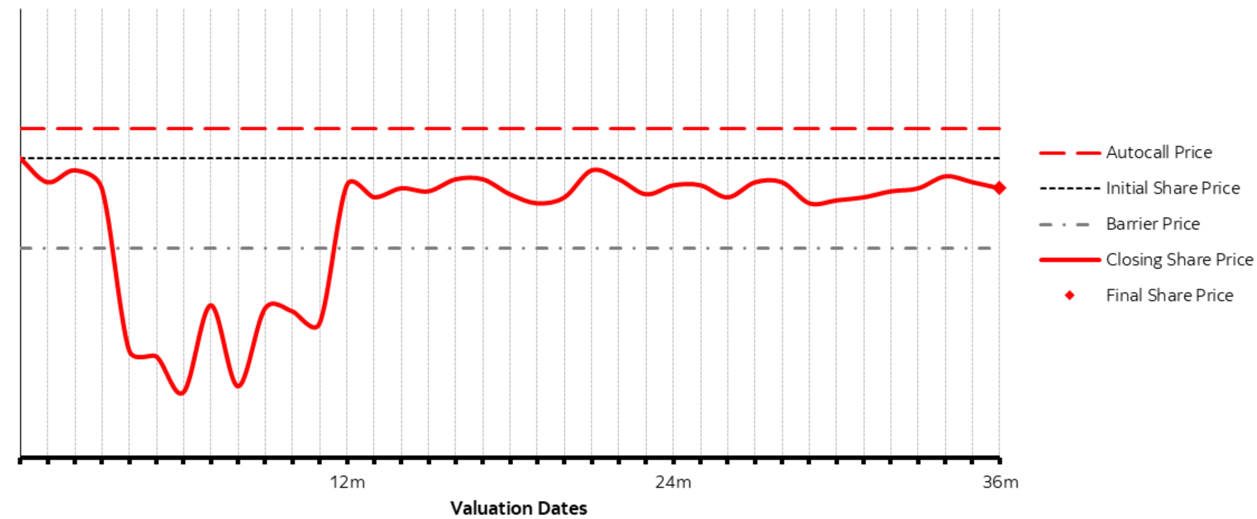
Since the Final Share Price (US$45.00) on the Final Valuation Date is less than the Barrier Price, the Maturity Redemption Amount is calculated as follows:

Principal Amount + (Principal Amount × Price Return)
US$100.00 + (US$100.00 × −55.00%) = US$45.00 per Note

In this example, since the Closing Share Price is less than the Barrier Price on all Coupon Valuation Dates, an investor would not receive any Coupon Payments.

An investor would receive a Maturity Redemption Amount of US$45.00 per Note on the Maturity Date, which is equivalent to an annual compound rate of return of approximately −23.37% per Note.

Example #2 – The Notes are not automatically called as the Closing Share Price on each Autocall Valuation Date is less than the Autocall Price. The Final Share Price on the Final Valuation Date is greater than or equal to the Barrier Price.



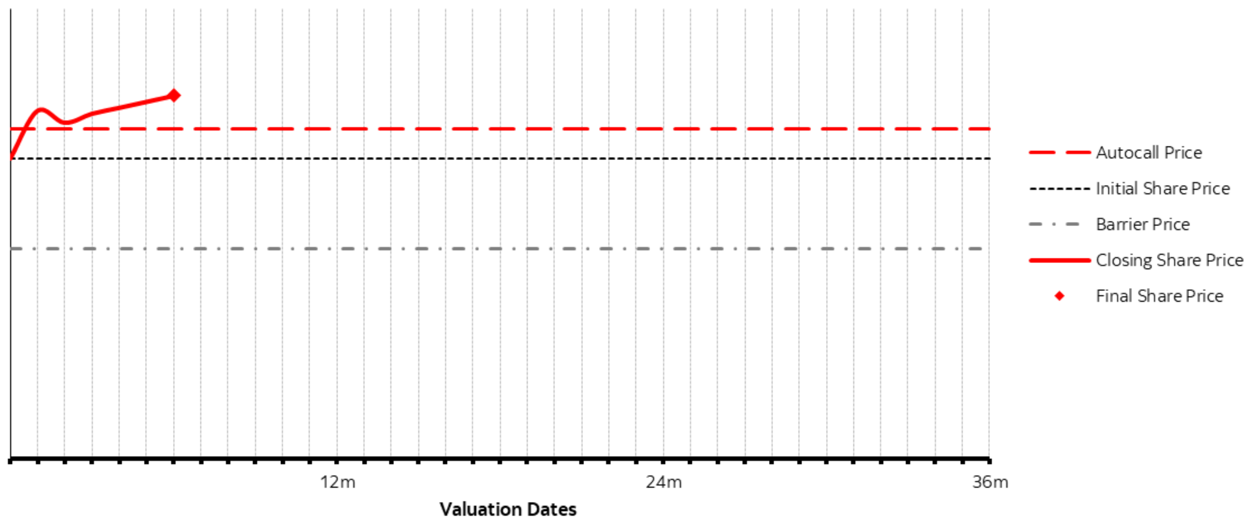
Since the Final Share Price (US$90.00) on the Final Valuation Date is greater than the Barrier Price, the Maturity Redemption Amount is calculated as follows:

Principal Amount
US$100.00 per Note

In this example, an investor would receive a Coupon Payment for each of the first to the third and the twelfth to the thirty-sixth Coupon Valuation Dates, but would not receive any Coupon Payments for the fourth to the eleventh Coupon Valuation Dates, since the Closing Share Price on each such Coupon Valuation Date is less than the Barrier Price.

An investor would receive aggregate Coupon Payments of US$44.66 per Note, and a Maturity Redemption Amount of US$100.00 per Note, on the Maturity Date, which is equivalent to an annual compound rate of return of approximately 13.10% per Note.

Example #3 – The Notes are automatically called on the first Autocall Valuation Date as the Closing Share Price on the first Autocall Valuation Date is greater than or equal to the Autocall Price.



Since the Closing Share Price (US$121.00) on the first Autocall Valuation Date is greater than the Autocall Price, the Maturity Redemption Amount is calculated as follows:

Principal Amount
US$100.00 per Note

In this example, since the Closing Share Price is greater than the Barrier Price on each applicable Coupon Valuation Date, an investor would receive a Coupon Payment on each of the first six Payment Dates.

An investor would receive aggregate Coupon Payments of US$9.57 per Note, and a Maturity Redemption Amount of US$100.00 per Note, which is equivalent to an annual compound rate of return of approximately 20.06% per Note.

Appendix B

Certain Canadian Federal Income Tax Considerations

In the opinion of Stikeman Elliott LLP, counsel to the Bank, the following is, as of the date hereof, a summary of the principal Canadian federal income tax considerations generally applicable to the acquisition, holding and disposition of the Notes by an investor who purchases the Notes at the time of their issuance. This summary is applicable only to an investor who, for the purposes of the Act and at all relevant times, is an individual (other than a trust), is or is deemed to be resident in Canada, deals at arm's length with the Bank and the Investment Dealers, is not affiliated with the Bank and holds the Notes as capital property (a "Resident Initial Investor"). The Notes will generally be considered to be capital property to a Resident Initial Investor unless: (i) the Resident Initial Investor holds the Notes in the course of carrying on or otherwise as part of a business, or (ii) the Resident Initial Investor acquired the Notes as an adventure or concern in the nature of trade. Certain Resident Initial Investors whose Notes might not otherwise be considered to be capital property or who desire certainty with respect to the treatment of the Notes as capital property may be entitled to make an irrevocable election pursuant to subsection 39(4) of the Act to deem the Notes and every other "Canadian security" (as defined in the Act) owned by the Resident Initial Investor in the taxation year of the election and all subsequent taxation years to be capital property. This summary does not apply to any Resident Initial Investor who has entered into, or will enter into, in respect of the Notes, a "derivative forward agreement", as that term is defined in the Act. **Prospective investors who are not Resident Initial Investors should consult their own tax advisors as to the income tax consequences to them of acquiring, holding and disposing of Notes.**

This summary is based on the current provisions of the Act and the regulations thereunder as in force on the date hereof (the "Regulations"), counsel's understanding of the current administrative and assessing practices of the Canada Revenue Agency (the "CRA") and all specific proposals to amend the Act and Regulations publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (the "Tax Proposals"). This summary assumes that all Tax Proposals will be enacted substantially as proposed; however, no assurance can be given that the Tax Proposals will be enacted as proposed or at all. This summary does not, except for the Tax Proposals, take into account or anticipate any changes in law or the CRA's administrative or assessing practices, whether by legislative, governmental or judicial decision or action. This summary is not exhaustive of all possible Canadian federal income tax considerations applicable to an investment in the Notes and does not take into account provincial, territorial or foreign income tax legislation or considerations, which are not addressed in this summary.

This summary is of a general nature only and is not intended to be legal or tax advice to any investor. Investors should consult their own tax advisors for advice with respect to the income tax consequences of an investment in the Notes, based on their particular circumstances.

The Notes are denominated in U.S. dollars. For the purposes of the Act, all U.S. dollar amounts relating to the acquisition, holding or disposition of a Note must generally be converted into Canadian dollars using the Applicable Exchange Rate. As a result, a Resident Initial Investor may realize income, capital gains or capital losses by virtue of fluctuations in the value of the U.S. dollar relative to the Canadian dollar.

Payment of the Coupon Payments, the Maturity Redemption Amount or Accelerated Payment

In certain circumstances provisions of the Act can deem interest to accrue on a "prescribed debt obligation" (as defined for the purposes of the Act), such as the Notes. Based in part on counsel's understanding of the CRA's administrative practice and subject to the comments below, there should be no deemed accrual of interest on the Notes under these provisions prior to the taxation year of the Resident Initial Investor that includes: (i) in respect of each Coupon Payment, the related Coupon Valuation Date on which the amount of the applicable Coupon Payment is determined, or (ii) in respect of an Accelerated Payment (if any), the date such amount is determined, as applicable.

A Resident Initial Investor will be required to include in computing their income for a taxation year any Coupon Payment that becomes determinable in the particular taxation year to the extent that such amount was not otherwise included in computing the Resident Initial Investor's income for a preceding taxation year. If as the result of the occurrence of an Extraordinary Event, an Accelerated Payment is paid to a Resident Initial Investor in respect of a Note, the excess (if any) of such payment over the Principal Amount of the Note would be included in the Resident Initial Investor's income for the taxation year in which the redemption related to such Accelerated Payment occurs (a "Special Redemption Date") to the extent that such excess was not included in the Resident Initial Investor's income for a preceding taxation year.

If the Maturity Redemption Amount or Accelerated Payment (as applicable) received by a Resident Initial Investor on a disposition of a Note at maturity or on a Special Redemption Date (as applicable) is less than the Principal Amount of the Note, the Resident Initial Investor will generally realize a capital loss to the extent that the amount so paid is less than the Resident Initial Investor's adjusted cost base of the Note and any reasonable costs of disposition.

Disposition of Notes

In certain circumstances, where an investor assigns or otherwise transfers a debt obligation (other than as a consequence of a repayment of the debt obligation), the amount of interest accrued on the debt obligation to that time, but unpaid, will be excluded from the proceeds of disposition of the obligation and will be required to be included as interest in computing the investor's income for the taxation year in which the transfer occurs, except to the extent that it has been otherwise included in the investor's income for that taxation year or a preceding taxation year. With respect to an assignment or transfer of a Note by a Resident Initial Investor (other than as a consequence of a repayment or redemption of the Note), the Resident Initial Investor will be required to include in their income as accrued interest, an amount equal to the amount, if any, by which the price for which the Note was assigned or transferred (converted into Canadian dollars using the Applicable Exchange Rate on the date of assignment or transfer) exceeds the Principal Amount of the Note (converted into Canadian dollars using the Applicable Exchange Rate on the date of assignment or transfer).

In general, a disposition or deemed disposition of a Note by a Resident Initial Investor will give rise to a capital gain (or capital loss) to the extent that the proceeds of disposition, net of any amount included in the Resident Initial Investor's income as interest, exceed (or are less than) the aggregate of the Resident Initial Investor's adjusted cost base of the Note and any reasonable costs of disposition.

One-half of a capital gain realized by a Resident Initial Investor must be included in the income of the Resident Initial Investor and one-half of a capital loss realized by a Resident Initial Investor must be deducted against the taxable portion of capital gains realized in the year and may be deducted against the taxable portion of capital gains realized in the three preceding years or in subsequent years, subject to and in accordance with the rules in the Act.

Resident Initial Investors who dispose of Notes other than as a consequence of the repayment or redemption of the Notes by the Bank should consult their tax advisors with respect to their particular circumstances.

Eligibility for Investment

The Notes, if issued on the date of this pricing supplement, would be "qualified investments" (for purposes of the Act) for trusts governed by registered retirement savings plans ("RRSPs"), registered retirement income funds ("RRIFs"), registered disability savings plans ("RDSPs"), registered education savings plans ("RESPs"), tax-free savings accounts ("TFSAs"), deferred profit sharing plans ("DPSPs") and first home savings accounts ("FHSAs"), each within the meaning of the Act (other than a DPSP to which payments are made by the Bank or an employer with which the Bank does not deal at arm's length within the meaning of the Act).

Notwithstanding the foregoing, if the Notes are "prohibited investments" (as that term is defined in the Act) for a TFSA, RRSP, RRIF, RDSP, RESP or FHSA, a holder of the TFSA, RDSP or FHSA, an annuitant of the RRSP or the RRIF, or a subscriber of the RESP, as the case may be, (each a "Plan Holder") will be subject to a penalty tax as set out in the Act. The Notes will not be a "prohibited investment" for trusts governed by a TFSA, RRSP, RRIF, RDSP, RESP or FHSA provided that the Plan Holder of such TFSA, RRSP, RRIF, RDSP, RESP or FHSA, as applicable: (i) deals at arm's length with the Bank for purposes of the Act, and (ii) does not have a "significant interest", as defined in the Act, in the Bank. Plan Holders should consult their own tax advisors with respect to whether the Notes would be "prohibited investments" in their particular circumstances.

Appendix C

Summary Information Regarding the Reference Share and the Reference Company

The following is a summary description of the Reference Share and the Reference Company based on information obtained from the website of the Reference Company at www.broadcom.com, or under its profile at www.sec.gov. All information regarding the Reference Share and the Reference Company contained herein has been derived from publicly available sources and its accuracy or completeness cannot be guaranteed. The websites are not incorporated by reference in, and do not form part of, this pricing supplement. This pricing supplement relates only to the Notes and does not relate to the Reference Share.

The Bank is not affiliated with the Reference Company and has not performed any due diligence investigation or review of the Reference Company.

The Notes are not in any way sponsored, endorsed, sold or promoted by the Reference Company.

The Reference Company does not have any statutory liability with respect to the accuracy or completeness of any of the information contained in this pricing supplement and has no obligation or liability in connection with the administration, marketing or trading of the Notes.

The Reference Company and the Reference Share

The Reference Company designs, develops, and supplies semiconductor and semiconductor-based solutions and infrastructure software solutions. The Reference Company's semiconductor and semiconductor-based solutions are in five major end markets: Networking Connectivity, Wireless Device Connectivity, Servers and Storage Systems, Broadband and Industrial. The Reference Company also offers five major infrastructure software portfolios: Private Cloud, Mainframe Software, Cybersecurity, Enterprise Software and FC SAN Management. The Reference Company is listed on the Exchange under the symbol AVGO. As at December 17, 2025, the market capitalization of the Reference Company was approximately US$1,539.59 billion. Further information concerning the Reference Company can be sourced by investors on the website of the Reference Company at www.broadcom.com or under its profile at www.sec.gov.

Historical Performance

The following table sets forth the quarterly high and low Closing Share Prices of the Reference Share on the Exchange from the first calendar quarter of 2015 starting on January 2, 2015 through to December 17, 2025. The Closing Share Prices of the Reference Share may have been adjusted to reflect certain corporate actions such as subdivisions or consolidations. **The price of the Reference Share may be volatile meaning that such price can fluctuate and change considerably in relatively short periods and the price performance of the Reference Share cannot be predicted for any future period and as a result an investment linked to the price of the Reference Share may also be volatile. The Reference Share may also experience higher volatility compared to the equity market generally and other investments that are linked to the performance of a broadly diversified index or basket of securities and issuers.** Prospective investors are urged to consult publicly available sources for the prices and trading patterns of the Reference Share before investing in the Notes. **All values and prices in the following summary description of the Reference Company and the Reference Share are quoted in U.S. dollars.**

Year	Quarter	Highest Closing Share Price	Lowest Closing Share Price
2015			
	First Quarter	US$13.44	US$9.63
	Second Quarter	US$14.81	US$11.68
	Third Quarter	US$13.76	US$10.85
	Fourth Quarter	US$14.88	US$11.34
2016			
	First Quarter	US$15.69	US$11.63
	Second Quarter	US$16.48	US$14.01
